

Accessing Indicator Results on Your Health System: In Depth

Your Health System: In Depth provides decision-makers in health regions and facilities with comprehensive information on important health indicators that can be used to examine and assess your health system at the provincial/territorial, regional, hospital and long-term care organization levels. It presents comparative indicator results to facilitate the sharing of best practices and to help generate new ideas for improvement strategies.

Follow the steps below to obtain results for indicators in the Your Health System: In Depth web tool.

Step 1: Go to [Your Health System: In Depth](#) and

- a. Click **Export** to download results for all indicators in Your Health System: In Depth.
- b. Find results for a specific hospital, long-term care organization, city, health region or province/territory by entering its name into the indicated search bar and clicking **Indicator Results**.

Export all indicator results

Accessing Indicator Results

Step 2: Scroll to the bottom of the page and click the desired indicator to view your results.
