# Updates

Please note that updates were made based on stakeholder input during validation of the results in 2017.

## 1. Hospital Harm Framework

**Category**  
The number of hospitalizations with at least 1 harmful event in that category.

**Clinical group**  
The number of hospitalizations with at least 1 harmful event in that clinical group.

## 2. Hospital Harm numerator

### Clinical group selection

Codes for inclusion were gathered from other existing patient safety measures<sup>1–8</sup> and a review of the International Statistical Classification of Diseases and Related Health Problems (ICD-10-CA)<sup>9</sup>/Canadian Classification of Health Interventions (CCI)<sup>10</sup> and the Canadian Coding Standards<sup>11</sup> by CIHI classifications specialists. In consultation with clinical experts, CIHI first identified clinical groups related to harm that is associated with medical care, medication and surgical care, as well as health care–associated infections and patient accidents. The ICD-10-CA codes of these clinical groups were then defined in consultation with clinical experts and with feedback from a group of 7 selected hospitals. A modified Delphi process was employed to refine the scope of the big dot indicator, and the definitions and concepts of the remaining clinical groups were fine-tuned in close consultation with CIHI’s classifications specialists and clinical experts. At this point, there are 31 clinical groups in the framework and they fall under **4 categories of harm**. Please see the Hospital Harm Framework (Section 1).

### Alignment with existing CIHI indicators

The definitions and case selections for the following clinical groups were adopted from existing CIHI indicators, as they were developed in close consultation with experts in the field:

- Obstetric Trauma (With Instrument); and
- In-Hospital Sepsis.

However, case counts in these clinical groups may be slightly different from those for the above indicators. The reason is that the inclusions and exclusions for the denominator of the Hospital Harm indicator may be different from those of each of the above indicators.

# Data source

## Discharge Abstract Database (DAD), Canadian Institute for Health Information

The DAD captures administrative, clinical and demographic information on hospital discharges (including deaths, sign-outs and transfers). No additional data collection is needed to calculate the occurrence of hospital harm.

Harm is defined by ICD-10-CA codes or CCI codes in the Canadian Coding Standards.<sup>11</sup> Diagnosis and intervention codes are used, as are a number of data elements that are uniquely suited to capturing harm in hospital, such as diagnosis types and diagnosis clusters (refer to Section 4 for definitions).

Descriptions of the ICD-10-CA codes and CCI intervention codes included in indicator calculations are provided under each clinical group definition in this document.

# Counting harm

## Hospital stays with multiple harms

At each level of the Hospital Harm Framework, the number of hospital stays with at least 1 occurrence of harm is counted. Some patients may experience more than 1 occurrence of harm during a hospital stay (e.g., a urinary tract infection and a fall). In this case, each event would be counted within its respective clinical group. The table below details how harm is tabulated in a clinical group, in a category of harm and at the overall level.

**Table 1** Counting harms for hospital stays with multiple occurrences of harm

Abstract	Harm	Clinical group: Pneumonia	Clinical group: Sepsis	Clinical group: Patient Trauma	Category B: Health Care–Associated Infections	Category D: Procedure-Associated Conditions	Hospital Harm (overall)
A	2 episodes of pneumonia	1	—	—	1	—	1
B	Pneumonia and trauma	1	—	1	1	1	1
C	Pneumonia and sepsis	1	1	—	1	—	1

**Note**

— Not applicable.

Abstract A: The patient has experienced 2 occurrences of the same type of harmful event. This harm is counted once in the Pneumonia clinical group and once in the Health Care–Associated Infections category.

Abstract B: The patient has experienced 2 different harmful events that fall into different categories of harm. This harm is counted once in the Pneumonia clinical group and once in the Patient Trauma clinical group, and it is counted once in the overall Health Care–Associated Infections category and once in Procedure-Associated Conditions.

Abstract C: The patient has experienced 2 different types of harm that both fall into the same Health Care–Associated Infections category. This harm is counted once in the Pneumonia clinical group and once in the Sepsis clinical group, but it is counted only once in the Health Care–Associated Infections category.

Each of these abstracts is counted once in the big dot indicator.

### **Harm reflected in multiple clinical groups**

Some occurrences of harm meet the definitions of 2 clinical groups that describe the event from different perspectives (such as the cause versus the outcome).

Examples:

- Pneumonia following a surgical procedure is counted in both Pneumonia and Post-Procedural Infections clinical groups. This hospital stay is counted as 1 occurrence of harm in the Health Care–Associated Infections category and in the overall Hospital Harm.
- An injury caused by insertion of a needle is counted in both the Infusion, Transfusion and Injection Complications and the Patient Trauma clinical groups. This hospital stay is counted as 1 occurrence in the Health Care–Associated Conditions category and as 1 occurrence in the Procedure-Associated Conditions category, but as 1 in the overall Hospital Harm.

The Table below presents the clinical groups that may be relevant to the same occurrence of harm.

**Table 2** Clinical groups that may overlap in relevance to the same occurrence of harm

Clinical groups	Overlapping clinical group
<b>A01: Anemia — Hemorrhage</b> <b>A02: Obstetric Hemorrhage</b> <b>A05: Delirium</b> <b>A06: Venous Thromboembolism</b> <b>A07: Hypoglycemia</b> <b>A09: Electrolyte and Fluid Imbalance</b>	A10: Medication Incidents
<b>A06: Venous Thromboembolism</b> <b>A09: Electrolyte and Fluid Imbalance</b> <b>B14: Post-Procedural Infections</b> <b>D19: Patient Trauma</b> <b>D22: Pneumothorax</b>	A11: Infusion, Transfusion and Injection Complications
<b>A12: Aspiration Pneumonitis</b> <b>B13: Urinary Tract Infections</b> <b>B15: Viral Gastroenteritis</b> <b>B16: Pneumonia</b>	B14: Post-Procedural Infections
<b>B13: Urinary Tract Infections</b> <b>B14: Post-Procedural Infections</b> <b>B15: Viral Gastroenteritis</b> <b>B16: Pneumonia</b>	B18: Infections Due to <i>Clostridium difficile</i> , MRSA or VRE
<b>D20: Device Failure</b> <b>D21: Laceration/Puncture</b> <b>D22: Pneumothorax</b> <b>D23: Wound Disruption</b> <b>D24: Retained Foreign Body</b>	D19: Patient Trauma
<b>D20: Device Failure</b> <b>D21: Laceration/Puncture</b>	D22: Pneumothorax
<b>B13: Urinary Tract Infections</b> <b>B14: Post-Procedural Infections</b> <b>B15: Viral Gastroenteritis</b> <b>B16: Pneumonia</b>	D26: Selected Serious Events

### 3. Clinical groups — Definition, concept and methodology

#### Category A: Health Care–/ Medication-Associated Conditions

This category includes harm related to general care provided as well as medication administered during a hospital stay. Harm associated with medications may be the result of medication administered appropriately (adverse effects in therapeutic use) or in error (incorrect medication or dosage).

##### **A01: Anemia — Hemorrhage**

###### **Concept**

Hemorrhagic anemia or hemorrhagic disorders that require(s) blood transfusion, identified during a hospital stay, related to the health care delivered or therapeutic use of anticoagulants

###### **Notes**

1. This clinical group does not include obstetric hemorrhage (refer to A02: Obstetric Hemorrhage and D02: Obstetric Hemorrhage) and hemorrhage or hemorrhagic anemia associated with a medical or surgical procedure (refer to D01: Anemia — Hemorrhage).
2. Prior to 2018–2019, the blood transfusion indicator was optional to code in British Columbia.

###### **Selection criteria**

<b>Codes</b>	<b>Conditions</b>
<b>D62</b>	Identified as diagnosis type (2) <b>not in a diagnosis cluster AND</b> documentation of blood transfusion (blood received indicator = 1)
<b>D68.3</b>	Identified as diagnosis type (2) <b>AND Y44.2 in the same diagnosis cluster</b>

###### **Exclusions**

Y60–Y84 in the same diagnosis cluster

**Code descriptions**

Codes	Code descriptions
D62	Acute posthaemorrhagic anaemia
D68.3	Haemorrhagic disorder due to circulating anticoagulants

**Additional codes: Inclusions**

Codes	Code descriptions
Y44.2	Drugs, medicaments and biological substances causing adverse effects in therapeutic use; anticoagulants

**Additional codes: Exclusions**

Codes	Code descriptions
Y60–Y84	Complications of medical and surgical care (refer to Appendix A)

**A02: Obstetric Hemorrhage****Concept**

Hemorrhage from the pelvic area, genital tract or perineum following non-instrumented vaginal delivery that requires blood transfusion during the delivery episode of care

**Notes**

1. This clinical group includes hemorrhage due to episiotomy.
2. Refer to D02: Obstetric Hemorrhage for hemorrhage after an instrument-assisted delivery or Caesarean section delivery.
3. The blood transfusion indicator is optional to code in British Columbia.

**Selection criteria**

Codes	Conditions
<b>O72.002</b> <b>O72.102</b> <b>O72.202</b> <b>O90.202</b>	Identified as diagnosis type (M), (1), (2), (W), (X) or (Y) <b>AND</b> documentation of blood transfusion (blood received indicator = 1)

## Exclusions

Abstracts with intervention codes for instrument-assisted or Caesarean section delivery (5.MD.53.^, 5.MD.54.^, 5.MD.55.^, 5.MD.56.NN, 5.MD.56.PC, 5.MD.56.NR, 5.MD.56.PF, 5.MD.56.NW, 5.MD.56.PJ or 5.MD.60.^)

## Code descriptions

Codes	Code descriptions
<b>072.002</b>	Third-stage hemorrhage; delivered with mention of postpartum complication
<b>072.102</b>	Other immediate postpartum hemorrhage; delivered with mention of postpartum complication
<b>072.202</b>	Delayed and secondary postpartum hemorrhage; delivered with mention of postpartum complication
<b>090.202</b>	Hematoma of obstetric wound; delivered with mention of postpartum complication

## Additional codes: Exclusions

Codes	Code descriptions
<b>5.MD.53.^</b>	Forceps traction and rotation delivery
<b>5.MD.54.^</b>	Vacuum traction delivery
<b>5.MD.55.^</b>	Combination of vacuum and forceps delivery
<b>5.MD.56.NN</b>	Breech delivery without episiotomy, partial breech extraction [assisted breech delivery] with forceps to aftercoming head
<b>5.MD.56.PC</b>	Breech delivery with episiotomy, partial breech extraction [assisted breech delivery] with forceps to aftercoming head
<b>5.MD.56.NR</b>	Breech delivery without episiotomy, total breech extraction with forceps to aftercoming head
<b>5.MD.56.PF</b>	Breech delivery with episiotomy, total breech extraction with forceps to aftercoming head
<b>5.MD.56.NW</b>	Breech delivery without episiotomy, unspecified breech extraction with forceps to aftercoming head
<b>5.MD.56.PJ</b>	Breech delivery with episiotomy, unspecified breech extraction with forceps to aftercoming head
<b>5.MD.60.^</b>	Caesarean section delivery

## A03: Obstetric Trauma

### Concept

Third- or fourth-degree perineal lacerations or other obstetric injuries to pelvic organs during a non-instrumented vaginal delivery identified during the delivery episode of care

### Notes

Refer to D03: Obstetric Trauma for obstetric trauma during an instrument-assisted vaginal delivery.

### Selection criteria

Codes	Conditions
<b>O70.201*</b> <b>O70.211†</b> <b>O70.221†</b> <b>O70.231†</b> <b>O70.281†</b> <b>O70.291†</b> <b>O70.301</b> <b>O71.181</b> <b>O71.301</b> <b>O71.401</b> <b>O71.501</b> <b>O71.601</b>	Identified as diagnosis type (M), (1), (2), (W), (X) or (Y) <b>AND</b> O10–O16, O21–O26, O28–O37, O40–O46, O48.–, O60–O75, O85–O92, O95.– or O98–O99 with a sixth digit of 1 or 2 or Z37.– <b>on the same abstract</b>
<b>5.PC.80.JH</b> <b>5.PC.80.JJ</b> <b>5.PC.80.JR</b> <b>5.PC.80.JQ</b> <b>5.PC.80.JU</b> <b>5.PC.80.JL</b>	Identified as an intervention <b>AND</b> O10–O16, O21–O26, O28–O37, O40–O46, O48.–, O60–, O75, O85–O92, O95.– or O98–O99 with a sixth digit of 1 or 2 or Z37.– <b>on the same abstract</b>

\* Before 2018–2019 data.

† Starting with 2018–2019 data.

### Exclusions

- Abstracts with intervention codes for instrument-assisted or Caesarean section delivery (5.MD.53.^, 5.MD.54.^, 5.MD.55.^, 5.MD.56.NN, 5.MD.56.PC, 5.MD.56.NR, 5.MD.56.PF, 5.MD.56.NW, 5MD.56.PJ or 5.MD.60.^)
- Abstracts indicating a pregnancy with abortive outcome (O04. – **OR** 5.CA.20.^, 5.CA.24.^, 5.CA.88.^, 5.CA.89.^ or 5.CA.93.^, not abandoned)

**Code descriptions**

<b>Codes</b>	<b>Code descriptions</b>
<b>O70.201</b>	Third degree perineal laceration during delivery; delivered with or without mention of antepartum condition
<b>O70.211</b>	Third degree perineal laceration during delivery, type 3a, so described, delivered, with or without mention of antepartum condition
<b>O70.221</b>	Third degree perineal laceration during delivery, type 3b, so described, delivered, with or without mention of antepartum condition
<b>O70.231</b>	Third degree perineal laceration during delivery, type 3c, so described, delivered, with or without mention of antepartum condition
<b>O70.281</b>	Third degree perineal laceration during delivery, other specified type, delivered, with or without mention of antepartum condition
<b>O70.291</b>	Third degree perineal laceration during delivery, unspecified type, delivered, with or without mention of antepartum condition
<b>O70.301</b>	Fourth degree perineal laceration during delivery; delivered with or without mention of antepartum condition
<b>O71.181</b>	Other rupture of uterus during labour; delivered with or without mention of antepartum condition
<b>O71.301</b>	Obstetric laceration of cervix; delivered with or without mention of antepartum condition
<b>O71.401</b>	Obstetric high vaginal laceration; delivered with or without mention of antepartum condition
<b>O71.501</b>	Other obstetric injury to pelvic organs; delivered with or without mention of antepartum condition
<b>O71.601</b>	Obstetric damage to pelvic joints and ligaments; delivered with or without mention of antepartum condition
<b>5.PC.80.JH</b>	Surgical repair, postpartum of obstetric laceration of corpus uteri [body of uterus]
<b>5.PC.80.JJ</b>	Surgical repair, postpartum of current obstetric laceration of cervix occurring at vaginal delivery
<b>5.PC.80.JR</b>	Surgical repair, postpartum of current obstetric laceration of bladder and urethra
<b>5.PC.80.JQ</b>	Surgical repair, postpartum of current obstetric laceration of rectum and sphincter ani
<b>5.PC.80.JU</b>	Surgical repair, postpartum of current obstetric high vaginal laceration
<b>5.PC.80.JL</b>	Surgical repair, postpartum of current obstetric laceration of broad ligament(s) of uterus

**Additional codes: Inclusions**

<b>Codes</b>	<b>Code descriptions</b>
<b>O10–O16 O21–O26 O28–O37 O40–O46 O48.– O60–O75 O85–O92 O95.– O98–O99 Z37.–</b>	Outcome of delivery (refer to Appendix A)

**Additional codes: Exclusions**

<b>Codes</b>	<b>Code descriptions</b>
<b>O04.–</b>	Medical abortion
<b>5.CA.20.^</b>	Pharmacotherapy (in preparation for), termination of pregnancy
<b>5.CA.24.^</b>	Preparation by dilating cervix (for), termination of pregnancy
<b>5.CA.88.^</b>	Pharmacological termination of pregnancy
<b>5.CA.89.^</b>	Surgical termination of pregnancy
<b>5.CA.93.^</b>	Surgical removal of extrauterine pregnancy
<b>5.MD.53.^</b>	Forceps traction and rotation delivery
<b>5.MD.54.^</b>	Vacuum traction delivery
<b>5.MD.55.^</b>	Combination of vacuum and forceps delivery
<b>5.MD.56.NN</b>	Breech delivery without episiotomy, partial breech extraction [assisted breech delivery] with forceps to aftercoming head
<b>5.MD.56.PC</b>	Breech delivery with episiotomy, partial breech extraction [assisted breech delivery] with forceps to aftercoming head
<b>5.MD.56.NR</b>	Breech delivery without episiotomy, total breech extraction with forceps to aftercoming head
<b>5.MD.56.PF</b>	Breech delivery with episiotomy, total breech extraction with forceps to aftercoming head
<b>5.MD.56.NW</b>	Breech delivery without episiotomy, unspecified breech extraction with forceps to aftercoming head
<b>5.MD.56.PJ</b>	Breech delivery with episiotomy, unspecified breech extraction with forceps to aftercoming head
<b>5.MD.60.^</b>	Caesarean section delivery

## A04: Birth Trauma

### Concept

Injuries to the newborn during non-instrumented vaginal delivery identified during the birth episode of care

### Notes

Refer to D04: Birth Trauma for injuries during an instrument-assisted or Caesarean section delivery.

### Selection criteria

Codes	Conditions
P10–P15	Identified as diagnosis type (M), (1), (2), (W), (X) or (Y) <b>AND</b> Entry Code N*

### Exclusions

1. Newborns whose mother's abstract has intervention codes for instrument-assisted or Caesarean section delivery,<sup>†</sup> (5.MD.53.^, 5.MD.54.^, 5.MD.55.^, 5.MD.56.NN, 5.MD.56.PC, 5.MD.56.NR, 5.MD.56.PF, 5.MD.56.NW, 5MD.56.PJ or 5.MD.60.^)<sup>‡</sup> **OR**
2. Newborn abstracts with brain damage due to birth injury (P10.–, P11.1 or P11.2) as diagnosis type (M) or (1) **AND** preterm and low birth weight (P07.–) as diagnosis type (M), (1) or (2) **OR**
3. Newborn abstracts with termination of pregnancy affecting fetuses and newborns (P96.4) **OR**
4. Newborn abstracts with congenital malformations of the central nervous system (Q00–Q07) as diagnosis type (M) or (1) **OR**
5. Newborn abstracts with congenital malformations and deformations of the musculoskeletal system (Q65–Q79) as diagnosis type (M) or (1)

### Code descriptions

Codes	Code descriptions
P10.–	Intracranial laceration and hemorrhage due to birth injury
P11.–	Other birth injuries to central nervous system
P12.–	Birth injury to scalp
P13.–	Birth injury to skeleton
P14.–	Birth injury to peripheral nervous system
P15.–	Other birth injuries

**Additional codes: Exclusions**

<b>Codes</b>	<b>Code descriptions</b>
<b>P07.–</b>	Disorders related to short gestation and low birth weight, not elsewhere classified
<b>P10.–<sup>§</sup></b>	Intracranial laceration and hemorrhage due to birth injury
<b>P11.1<sup>§</sup></b>	Other specified brain damage due to birth injury
<b>P11.2<sup>§</sup></b>	Unspecified brain damage due to birth injury
<b>P96.4</b>	Termination of pregnancy, affecting fetus and newborn
<b>Q00–Q07</b>	Congenital malformations of the nervous system (refer to Appendix A)
<b>Q65–Q79</b>	Congenital malformations and deformations of the musculoskeletal system (refer to Appendix A)
<b>5.CA.20.^</b>	Pharmacotherapy (in preparation for), termination of pregnancy
<b>5.CA.24.^</b>	Preparation by dilating cervix (for), termination of pregnancy
<b>5.CA.88.^</b>	Pharmacological termination of pregnancy
<b>5.CA.89.^</b>	Surgical termination of pregnancy
<b>5.CA.93.^</b>	Surgical removal of extrauterine pregnancy
<b>5.MD.53.^</b>	Forceps traction and rotation delivery
<b>5.MD.54.^</b>	Vacuum traction delivery
<b>5.MD.55.^</b>	Combination of vacuum and forceps delivery
<b>5.MD.56.NN</b>	Breech delivery without episiotomy, partial breech extraction [assisted breech delivery] with forceps to aftercoming head
<b>5.MD.56.PC</b>	Breech delivery with episiotomy, partial breech extraction [assisted breech delivery] with forceps to aftercoming head
<b>5.MD.56.NR</b>	Breech delivery without episiotomy, total breech extraction with forceps to aftercoming head
<b>5.MD.56.PF</b>	Breech delivery with episiotomy, total breech extraction with forceps to aftercoming head
<b>5.MD.56.NW</b>	Breech delivery without episiotomy, unspecified breech extraction with forceps to aftercoming head
<b>5.MD.56.PJ</b>	Breech delivery with episiotomy, unspecified breech extraction with forceps to aftercoming head
<b>5.MD.60.^</b>	Caesarean section delivery

\* Entry Code N indicates an infant was born alive in the reporting facility.

† Due to the unavailability of chart numbers for Prince Edward Island, birth trauma with and without the assistance of instruments cannot be differentiated; therefore, all birth trauma in P.E.I. is included in this group regardless of the use of instruments or method of delivery.

‡ Newborns whose mothers are discharged from acute care facilities in a different fiscal year cannot be linked to the mothers' records; therefore, a few birth trauma cases that belong to D04 could be misclassified to A04 as the linkage is done within a fiscal year. A fiscal year is defined based on discharged date from April 1 of the current year to March 31 of the subsequent year.

§ These codes are part of the selection criteria, except when preterm and low birth weight is also coded. See the exclusion terms in the selection criteria section above.

## A05: Delirium

### Concept

Temporary disturbance in consciousness with changes in cognition identified during a hospital stay

### Selection criteria

Codes	Conditions
F05.–	Identified as diagnosis type (2)

### Code descriptions

Codes	Code descriptions
F05.–	Delirium, not induced by alcohol and other psychoactive substances

## A06: Venous Thromboembolism

### Concept

Embolism, thrombosis, phlebitis or thrombophlebitis of the pulmonary vein or other veins (excluding superficial veins) identified during a hospital stay

### Selection criteria

Codes	Conditions
<b>I26.–</b> <b>I80.1</b> <b>I80.2</b> <b>I82.2</b> <b>I82.8</b> <b>I82.9</b>	Identified as diagnosis type (2) <b>OR</b> Identified as diagnosis type (3) <b>AND</b> T80.1, T81.7, T82.8, T83.8, T84.8 or T85.8 as diagnosis type (2) <b>AND</b> Y60–Y84 <b>in the same diagnosis cluster</b>
<b>O87.102</b> <b>O87.902</b>	Identified as diagnosis type (M), (1), (2), (W), (X) or (Y)

**Code descriptions**

<b>Codes</b>	<b>Code descriptions</b>
<b>I26.–</b>	Pulmonary embolism
<b>I80.1</b>	Phlebitis and thrombophlebitis of femoral vein
<b>I80.2</b>	Phlebitis and thrombophlebitis of other deep vessels of lower extremities
<b>I82.2</b>	Embolism and thrombosis of vena cava
<b>I82.8</b>	Embolism and thrombosis of other specified veins
<b>I82.9</b>	Embolism and thrombosis of unspecified vein
<b>O87.102</b>	Deep phlebothrombosis in the puerperium; delivered with mention of postpartum complication
<b>O87.902</b>	Venous complication in the puerperium, unspecified; delivered with mention of postpartum complication

**Additional codes: Inclusions**

<b>Codes</b>	<b>Code descriptions</b>
<b>T80.1</b>	Vascular complications following infusion, transfusion and therapeutic injection
<b>T81.7</b>	Vascular complications following a procedure, not elsewhere classified
<b>T82.8</b>	Other specified complications of cardiac and vascular prosthetic devices, implants and grafts
<b>T83.8</b>	Other complications of genitourinary prosthetic devices, implants and grafts
<b>T84.8</b>	Other complications of internal orthopaedic prosthetic devices, implants and grafts
<b>T85.8</b>	Other complications of internal prosthetic devices, implants and grafts, not elsewhere classified
<b>Y60–Y84</b>	Complications of medical and surgical care (refer to Appendix A)

## A07: Hypoglycemia

### Concept

Hypoglycemia in diabetic and non-diabetic patients identified during a hospital stay

### Selection criteria

Codes	Conditions
E10.63 E11.63 E13.63 E14.63 E15	Identified as diagnosis type (2)
E16.0	Identified as diagnosis type (2) <b>AND</b> U07.7, Y40–Y59 in the same diagnosis cluster

### Code descriptions

Codes	Code descriptions
E10.63	Type 1 diabetes mellitus with hypoglycaemia
E11.63	Type 2 diabetes mellitus with hypoglycaemia
E13.63	Other specified diabetes mellitus with hypoglycaemia
E14.63	Unspecified diabetes mellitus with hypoglycaemia
E15	Nondiabetic hypoglycaemic coma
E16.0	Drug-induced hypoglycaemia without coma

### Additional codes: Inclusions

Codes	Code descriptions
U07.7, Y40–Y59	Drugs, medicaments and biological substances causing adverse effects in therapeutic use (refer to Appendix A)

## A08: Pressure Ulcer

### Concept

Any stage of pressure ulcer identified during a hospital stay

### Selection criteria

Codes	Conditions
L89.–	Identified as diagnosis type (2)

### Code descriptions

Codes	Code descriptions
L89.–	Decubitus [pressure] ulcer and pressure area

## A09: Electrolyte and Fluid Imbalance

### Concept

Electrolyte, fluid or acid–base imbalance identified during a hospital stay

### Note

This clinical group does not include procedure-associated hypovolemic shock (refer to D25: Procedure-Associated Shock).

### Selection criteria

Codes	Conditions
E86.– E87.–	Identified as diagnosis type (2)
E87.7	Identified as diagnosis type (3) <b>AND</b> T80.8 as diagnosis type (2) <b>AND</b> Y60–Y84 in the same diagnosis cluster
R57.1	Identified as diagnosis type (2) <b>not in a diagnosis cluster</b>

### Code descriptions

Codes	Code descriptions
E86.–	Volume depletion
E87.–	Other disorders of fluid, electrolyte and acid-base balance
E87.7	Fluid overload
R57.1	Hypovolaemic shock

**Additional codes: Inclusions**

Codes	Code descriptions
T80.8	Other complications following infusion, transfusion and therapeutic injection
Y60–Y84	Complications of medical and surgical care (refer to Appendix A)

**A10: Medication Incidents****Concept**

Medication-related events involving incorrect administration or dosage of medications identified during a hospital stay

**Note**

This clinical group does not include events caused by medications in therapeutic use.

**Selection criteria**

Codes	Conditions
T36–T50	Identified as diagnosis type (2)

**Code descriptions**

Codes	Code descriptions
T36.–	Poisoning by systemic antibiotics
T37.–	Poisoning by other systemic anti-infectives and antiparasitics
T38.–	Poisoning by hormones and their synthetic substitutes and antagonists, not elsewhere classified
T39.–	Poisoning by nonopioid analgesics, antipyretics and antirheumatics
T40.–	Poisoning by narcotics and psychodysleptics [hallucinogens]
T41.–	Poisoning by anaesthetics and therapeutic gases
T42.–	Poisoning by antiepileptic, sedative-hypnotic and antiparkinsonism drugs
T43.–	Poisoning by psychotropic drugs, not elsewhere classified
T44.–	Poisoning by drugs primarily affecting the autonomic nervous system
T45.–	Poisoning by primarily systemic and haematological agents, not elsewhere classified
T46.–	Poisoning by agents primarily affecting the cardiovascular system
T47.–	Poisoning by agents primarily affecting the gastrointestinal system

Codes	Code descriptions
T48.–	Poisoning by agents primarily acting on smooth and skeletal muscles and the respiratory system
T49.–	Poisoning by topical agents primarily affecting skin and mucous membrane and by ophthalmological, otorhinolaryngological and dental drugs
T50.–	Poisoning by diuretics and other and unspecified drugs, medicaments and biological substances

## A11: Infusion, Transfusion and Injection Complications

### Concept

Complications from infusions, transfusions and injections, including those related to therapeutic substances or procedures

### Selection criteria

Codes	Conditions
T80.0 T80.1 T80.2 T80.3 T80.4 T80.5 T80.6 T80.8 T80.9	Identified as diagnosis type (2)

### Code descriptions

Codes	Code descriptions
T80.0	Air embolism following infusion, transfusion and therapeutic injection
T80.1	Vascular complications following infusion, transfusion and therapeutic injection
T80.2	Infections following infusion, transfusion and therapeutic injection
T80.3	ABO incompatibility reaction
T80.4	Rh incompatibility reaction
T80.5	Anaphylactic shock due to serum
T80.6	Other serum reactions
T80.8	Other complications following infusion, transfusion and therapeutic injection
T80.9	Unspecified complication following infusion, transfusion and therapeutic injection

## A12: Aspiration Pneumonitis

### Concept

Inflammation of the lungs caused by aspiration of solids or liquids during a hospital stay

### Selection criteria

Codes	Conditions
J69.–	Identified as diagnosis type (2) <b>OR</b> Identified as diagnosis type (3) <b>AND</b> J95.88 as diagnosis type (2) <b>AND</b> Y60–Y84 in the same diagnosis cluster

### Code descriptions

Codes	Code descriptions
J69.–	Pneumonitis due to solids and liquids

### Additional codes: Inclusions

Codes	Code descriptions
J95.88	Other postprocedural respiratory disorders <i>Includes:</i> Ventilator-associated pneumonia (VAP)
Y60–Y84	Complications of medical and surgical care (refer to Appendix A)

## Category B: Health Care–Associated Infections

This category includes infections identified during a hospital stay or infections following a medical or surgical procedure.

### B13: Urinary Tract Infections

#### Concept

Urinary tract infections identified during a hospital stay

#### Note

In the neonatal age group, underestimation is probable, due to the exclusion of cases where identification of in-utero or birth process infections versus environment-acquired infections has been documented as a challenge.

**Selection criteria**

Codes	Conditions
<b>N39.0</b>	Identified as diagnosis type (2) <b>OR</b> Identified as diagnosis type (3) <b>AND</b> T83.5 as diagnosis type (2) <b>AND</b> Y60–Y84 <b>in the same diagnosis cluster</b>
<b>O86.202</b>	Identified as diagnosis type (M), (1), (2), (W), (X) or (Y)

**Exclusions**

Abstracts with a length of stay less than 2 days

**Code descriptions**

Codes	Code descriptions
<b>N39.0</b>	Urinary tract infection, site not specified
<b>O86.202</b>	Urinary tract infection following delivery; delivered with mention of postpartum complication

**Additional codes: Inclusions**

Codes	Code descriptions
<b>T83.5</b>	Infection and inflammatory reaction due to prosthetic device, implant and graft in urinary system
<b>Y60–Y84</b>	Complications of medical and surgical care (refer to Appendix A)

**B14: Post-Procedural Infections****Concept**

Infections associated with a medical or surgical procedure

**Notes**

This clinical group may include inflammatory reactions in the absence of infection.

**Selection criteria**

<b>Codes</b>	<b>Conditions</b>
<b>O86.002</b>	Identified as diagnosis type (M), (1), (2), (W), (X) or (Y)
<b>T80.2</b> <b>T81.4</b> <b>T82.6</b> <b>T82.7–</b> <b>T83.6</b> <b>T84.5–</b> <b>T84.6–</b> <b>T84.7</b> <b>T85.7</b> <b>T87.0*1</b> <b>T87.1*1</b> <b>T87.201</b> <b>T87.4–</b>	Identified as diagnosis type (2) <b>AND Y60–Y84 in the same diagnosis cluster</b>

**Code descriptions**

<b>Codes</b>	<b>Code descriptions</b>
<b>O86.002</b>	Infection of obstetric surgical wound; delivered with mention of postpartum complication
<b>T80.2</b>	Infections following infusion, transfusion and therapeutic injection
<b>T81.4</b>	Infection following a procedure, not elsewhere classified
<b>T82.6</b>	Infection and inflammatory reaction due to cardiac valve prosthesis
<b>T82.7–</b>	Infection and inflammatory reaction due to other cardiac and vascular devices, implants and grafts
<b>T83.6</b>	Infection and inflammatory reaction due to prosthetic device, implant and graft in genital tract
<b>T84.5–</b>	Infection and inflammatory reaction due to internal joint prosthesis
<b>T84.6–</b>	Infection and inflammatory reaction due to internal fixation device [any site]
<b>T84.7</b>	Infection and inflammatory reaction due to other internal orthopaedic prosthetic devices, implants and grafts
<b>T85.7</b>	Infection and inflammatory reaction due to other internal prosthetic devices, implants and grafts
<b>T87.0*1</b>	Complication of reattached (part of) upper extremity; infection
<b>T87.1*1</b>	Complications of reattached (part of) lower extremity; infection
<b>T87.201</b>	Infection of other reattached body part
<b>T87.4–</b>	Infection of amputation stump

**Additional codes: Inclusions**

Codes	Code descriptions
Y60–Y84	Complications of medical and surgical care (refer to Appendix A)

**B15: Viral Gastroenteritis****Concept**

Viral gastrointestinal infections during a hospital stay

**Selection criteria**

Codes	Conditions
A08.0 A08.1 A08.2 A08.3 A08.4	Identified as diagnosis type (2)

**Exclusions**

Abstracts with a length of stay less than 2 days

**Code descriptions**

Codes	Code descriptions
A08.0	Rotaviral enteritis
A08.1	Acute gastroenteropathy due to Norwalk agent
A08.2	Adenoviral enteritis
A08.3	Other viral enteritis
A08.4	Viral intestinal infection, unspecified

## B16: Pneumonia

### Concept

Pneumonia identified during a hospital stay

### Selection criteria

Codes	Conditions
J10.0 J11.0 J12.– J13 J14 J15.– J16.8 J18.– J85.1	Identified as diagnosis type (2) <b>OR</b> Identified as diagnosis type (3) <b>AND</b> J95.88 as diagnosis type (2) <b>AND</b> Y60–Y84 <b>in the same diagnosis cluster</b>

### Exclusions

Abstracts with a length of stay less than 2 days

### Code descriptions

Codes	Code descriptions
J10.0	Influenza with pneumonia, other influenza virus identified
J11.0	Influenza with pneumonia, virus not identified
J12.–	Viral pneumonia, not elsewhere classified
J13	Pneumonia due to <i>Streptococcus pneumoniae</i>
J14	Pneumonia due to <i>Haemophilus influenzae</i>
J15.–	Bacterial pneumonia, not elsewhere classified
J16.8	Pneumonia due to other specified infectious organisms
J18.–	Pneumonia, organism unspecified
J85.1	Abscess of lung with pneumonia

### Additional codes: Inclusions

Codes	Code descriptions
J95.88	Other postprocedural respiratory disorders <i>Includes:</i> Ventilator-associated pneumonia (VAP)
Y60–Y84	Complications of medical and surgical care (refer to Appendix A)

## B17: Sepsis

### Concept

Sepsis identified during a hospital stay, excluding neonatal sepsis

### Notes

This clinical group includes an episode of sepsis that developed in hospital; however, the infection which led to sepsis might have been acquired in the community or hospital.

### Selection criteria

Codes	Conditions
<b>A40.– A41.– B37.7 R57.2 R65.1</b>	Identified as diagnosis type (2) <b>OR</b> Identified as diagnosis type (3) <b>AND</b> T80.2, T81.4, T82.6, T82.7–, T83.5, T83.6, T84.5–, T84.6–, T84.7, T85.7 or T88.0 as diagnosis type (2) <b>AND</b> Y60–Y84 <b>in the same diagnosis cluster</b> <b>OR</b> Identified as diagnosis type (3) <b>AND</b> O03.0, O03.5, O04.0, O04.5, O05.0, O05.5, O07.3 or O08.0– as diagnosis type (2) <b>on the same abstract</b> <b>OR</b> Identified as diagnosis type (3) <b>AND</b> O98.502 or O98.802 as diagnosis type (M), (1), (2), (W), (X) or (Y) <b>on the same abstract</b>
<b>O85.002</b>	Identified as diagnosis type (M), (1), (2), (W), (X) or (Y)
<b>R57.2</b>	Identified as diagnosis type (3) <b>AND</b> T81.1 as diagnosis type (2) <b>AND</b> Y60–Y84 <b>in the same diagnosis cluster</b>

### Exclusions

1. Abstracts with age on admission less than 1 year
2. Abstracts with a length of stay less than 2 days
3. Abstracts with a most responsible diagnosis of palliative care (ICD-10-CA: Z51.5)
4. Abstracts where sepsis is also identified as a pre-admit condition are excluded from the numerator:
  - Abstracts with sepsis codes (ICD-10-CA: A40.–, A41.–, B37.7, R65.1, R57.2) or the associated post-procedural complication codes (ICD-10-CA: T80.2, T81.1, T81.4, T82.6, T82.7–, T83.5, T83.6, T84.5–, T84.6–, T84.7, T85.7, T88.0) identified as pre-admit (type (M), (1), (W), (X) or (Y))
  - Abstract with sepsis in obstetric patients where the puerperal sepsis code or the associated obstetric infection code is identified as pre-admit (ICD-10-CA: O85.004, O85.009, O98.501, O98.503, O98.504, O98.509, O98.801, O98.803, O98.804, O98.809 — any diagnosis type **or** O03.0, O03.5, O04.0, O04.5, O05.0, O05.5, O07.3, O08.0 as type (M), (1), (W), (X) or (Y))

As an exception, sepsis is not considered as a pre-admit condition when the above codes identified as type (M), (W), (X) or (Y) also appear as type (2) or within a post-admit sepsis coding scenario (sepsis code as type (2); sepsis code as type (3) or an associated infection code as type (2) in sepsis as post-procedural or obstetric complications).

### Code descriptions

Codes	Code descriptions
A40.–	Streptococcal sepsis
A41.–	Other sepsis
B37.7	Candidal sepsis
O03.0	Spontaneous abortion, incomplete, complicated by genital tract and pelvic infection
O03.5	Spontaneous abortion, complete or unspecified, complicated by genital tract and pelvic infection
O04.0	Medical abortion, incomplete, complicated by genital tract and pelvic infection
O04.5	Medical abortion, complete or unspecified, complicated by genital tract and pelvic infection
O05.0	Other abortion, incomplete, complicated by genital tract and pelvic infection
O05.5	Other abortion, complete or unspecified, complicated by genital tract and pelvic infection
O07.3	Failed attempted abortion, complicated
O08.0–	Complications following abortion and ectopic and molar pregnancy; genital tract and pelvic infection
O85.002	Puerperal sepsis, delivered with mention of postpartum complication
O98.502	Other viral diseases complicating pregnancy, childbirth and the puerperium; delivered with mention of postpartum complication
O98.802	Other maternal infectious and parasitic diseases complicating pregnancy, childbirth and the puerperium; delivered with mention of postpartum complication
R57.2	Septic shock
R65.1	Systemic inflammatory response syndrome of infectious origin with acute organ failure

### Additional codes: Inclusions

Codes	Code descriptions
T80.2	Infections following infusion, transfusion and therapeutic injection
T81.4	Infection following a procedure, not elsewhere classified
T81.1	Shock during or resulting from a procedure, not elsewhere classified
T82.6	Infection and inflammatory reaction due to cardiac valve prosthesis

<b>Codes</b>	<b>Code descriptions</b>
<b>T82.7–</b>	Infection and inflammatory reaction due to other cardiac and vascular devices, implants and grafts
<b>T83.5</b>	Infection and inflammatory reaction due to prosthetic device, implant and graft in urinary system
<b>T83.6</b>	Infection and inflammatory reaction due to prosthetic device, implant and graft in genital tract
<b>T84.5–</b>	Infection and inflammatory reaction due to internal joint prosthesis
<b>T84.6–</b>	Infection and inflammatory reaction due to internal fixation device [any site]
<b>T84.7</b>	Infection and inflammatory reaction due to other internal orthopaedic prosthetic devices, implants and grafts
<b>T85.7</b>	Infection and inflammatory reaction due to other internal prosthetic devices, implants and grafts
<b>T88.0</b>	Infection following immunization
<b>Y60–Y84</b>	Complications of medical and surgical care (refer to Appendix A)

#### **Additional codes: Exclusions**

<b>Codes</b>	<b>Code descriptions</b>
<b>O85.004</b>	Puerperal sepsis, postpartum condition or complication
<b>O85.009</b>	Puerperal sepsis, unspecified as to episode of care, or not applicable
<b>O98.501</b>	Other viral diseases complicating pregnancy, childbirth and the puerperium; delivered with or without mention of antepartum condition
<b>O98.503</b>	Other viral diseases complicating pregnancy, childbirth and the puerperium; antepartum condition or complication
<b>O98.504</b>	Other viral diseases complicating pregnancy, childbirth and the puerperium; postpartum condition or complication
<b>O98.509</b>	Other viral diseases complicating pregnancy, childbirth and the puerperium; unspecified as to episode of care, or not applicable
<b>O98.801</b>	Other maternal infectious and parasitic diseases complicating pregnancy, childbirth and the puerperium; delivered with or without mention of antepartum condition
<b>O98.803</b>	Other maternal infectious and parasitic diseases complicating pregnancy, childbirth and the puerperium; antepartum condition or complication
<b>O98.804</b>	Other maternal infectious and parasitic diseases complicating pregnancy, childbirth and the puerperium; postpartum condition or complication
<b>O98.809</b>	Other maternal infectious and parasitic diseases complicating pregnancy, childbirth and the puerperium; unspecified as to episode of care, or not applicable
<b>Z51.5</b>	Palliative care

## B18: Infections Due to *Clostridium difficile*, MRSA or VRE

### Concept

Bacterial infections identified during a hospital stay due to *Clostridium difficile* (*C. difficile*), methicillin-resistant *Staphylococcus aureus* (MRSA) or vancomycin-resistant enterococci (VRE)

### *C. difficile*

#### Selection criteria

Codes	Conditions
A04.7	Identified as diagnosis type (2)

#### Exclusions

1. Abstracts with age on admission less than 1 year
2. Abstracts with a length of stay less than 3 days

## MRSA

#### Selection criteria

Codes	Conditions
A41.0	Identified as diagnosis type (2) <b>AND</b> U82.1 as diagnosis type (1) or (2) <b>in the same diagnosis cluster</b> <b>OR</b> Identified as diagnosis type (3) <b>AND</b> U82.1 as diagnosis type (1) or (2) <b>AND</b> T80.2, T81.4, T82.6, T82.7–, T83.5, T83.6, T84.5–, T84.6–, T84.7, T85.7 or T88.0 as diagnosis type (2) <b>AND</b> Y60–Y84 <b>in the same diagnosis cluster</b> <b>OR</b> Identified as diagnosis type (3) <b>AND</b> U82.1 as diagnosis type (1) or (2) <b>AND</b> O03.0, O03.5, O04.0, O04.5, O05.0, O05.5, O07.3 or O08.0– as diagnosis type (2) <b>in the same diagnosis cluster</b> <b>OR</b> Identified as diagnosis type (3) <b>AND</b> U82.1 as diagnosis type (1) or (2) <b>AND</b> O98.502 or O98.802 as diagnosis type (M), (1), (2), (W), (X) or (Y) <b>in the same diagnosis cluster</b>
A49.0 J15.2 G00.3 L00 M00.0–	Identified as diagnosis type (2) <b>AND</b> U82.1 as diagnosis type (1) or (2) <b>in the same diagnosis cluster</b>
B95.6	Identified as diagnosis type (3) <b>AND</b> U82.1 as diagnosis type (1) or (2) <b>AND</b> a site of infection code* as diagnosis type (2) <b>in the same diagnosis cluster</b>

#### Exclusions

Abstracts with a length of stay less than 2 days

## VRE

### Selection criteria

Codes	Conditions
<b>A41.80*</b> <b>A40.21†</b>	Identified as diagnosis type (2) <b>AND</b> U83.0 as diagnosis type (1) or (2) <b>in the same diagnosis cluster</b> <b>OR</b> Identified as diagnosis type (3) <b>AND</b> U83.0 as diagnosis type (1) or (2) <b>AND</b> T80.2, T81.4, T82.6, T82.7–, T83.5, T83.6, T84.5–, T84.6–, T84.7, T85.7 or T88.0 as diagnosis type (2) <b>AND</b> Y60–Y84 <b>in the same diagnosis cluster</b> <b>OR</b> Identified as diagnosis type (3) <b>AND</b> U83.0 as diagnosis type (1) or (2) <b>AND</b> O03.0, O03.5, O04.0, O04.5, O05.0, O05.5, O07.3 or O08.0– as diagnosis type (2) <b>in the same diagnosis cluster</b> <b>OR</b> Identified as diagnosis type (3) <b>AND</b> U83.0 as diagnosis type (1) or (2) <b>AND</b> O98.502 or O98.802 as diagnosis type (M), (1), (2), (W), (X) or (Y) <b>in the same diagnosis cluster</b>
<b>B96.81*</b> <b>B95.21†</b>	Identified as diagnosis type (3) <b>AND</b> U83.0 as diagnosis type (1) or (2) <b>AND</b> a site of infection code* as diagnosis type (2) <b>in the same diagnosis cluster</b>

\* Before 2018–2019 data.

† Starting with 2018–2019 data.

### Exclusions

Abstracts with a length of stay less than 2 days

### Code descriptions

Codes	Code descriptions
<b>A04.7</b>	Enterocolitis due to <i>Clostridium difficile</i>
<b>A41.0</b>	Sepsis due to <i>Staphylococcus aureus</i>
<b>A41.80</b> <b>A40.21</b>	Sepsis due to <i>Enterococcus</i>
<b>B95.6</b>	<i>Staphylococcus aureus</i> as the cause of diseases classified to other chapters
<b>B96.81</b> <b>B95.21</b>	<i>Enterococcus</i> as the cause of diseases classified to other chapters
<b>A49.0</b>	Staphylococcal infection, unspecified site
<b>J15.2</b>	Pneumonia due to <i>Staphylococcus</i>
<b>G00.3</b>	Staphylococcal meningitis
<b>L00</b>	Staphylococcal scalded skin syndrome

**Additional codes: Inclusions**

<b>Codes</b>	<b>Code descriptions</b>
<b>O03.0</b>	Spontaneous abortion, incomplete, complicated by genital tract and pelvic infection
<b>O03.5</b>	Spontaneous abortion, complete or unspecified, complicated by genital tract and pelvic infection
<b>O04.0</b>	Medical abortion, incomplete, complicated by genital tract and pelvic infection
<b>O04.5</b>	Medical abortion, complete or unspecified, complicated by genital tract and pelvic infection
<b>O05.0</b>	Other abortion, incomplete, complicated by genital tract and pelvic infection
<b>O05.5</b>	Other abortion, complete or unspecified, complicated by genital tract and pelvic infection
<b>O07.3</b>	Failed attempted abortion, complicated
<b>O08.0–</b>	Complications following abortion and ectopic and molar pregnancy; genital tract and pelvic infection
<b>O98.502</b>	Other viral diseases complicating pregnancy, childbirth and the puerperium; delivered with mention of postpartum complication
<b>O98.802</b>	Other maternal infectious and parasitic diseases complicating pregnancy, childbirth and the puerperium; delivered with mention of postpartum complication
<b>T80.2</b>	Infections following infusion, transfusion and therapeutic injection
<b>T81.4</b>	Infection following a procedure, not elsewhere classified
<b>T82.6</b>	Infection and inflammatory reaction due to cardiac valve prosthesis

<b>T83.5</b>	Infection and inflammatory reaction due to prosthetic device, implant and graft in urinary system
<b>T83.6</b>	Infection and inflammatory reaction due to prosthetic device, implant and graft in genital tract
<b>T84.5–</b>	Infection and inflammatory reaction due to internal joint prosthesis
<b>T84.6–</b>	Infection and inflammatory reaction due to internal fixation device [any site]
<b>T84.7</b>	Infection and inflammatory reaction due to other internal orthopaedic prosthetic devices, implants and grafts
<b>T85.7</b>	Infection and inflammatory reaction due to other internal prosthetic devices, implants and grafts
<b>T88.0</b>	Infection following immunization
<b>U82.1</b>	Resistance to methicillin
<b>U83.0</b>	Resistance to vancomycin
<b>Y60–Y84</b>	Complications of medical and surgical care (refer to Appendix A)

\* For the descriptions of site of infection codes, please see Appendix B.

## Category C: Patient Accidents

This category includes in-hospital injuries (e.g., fractures, dislocations, burns) that are due to a patient accident, not directly related to medical or surgical procedures. Procedure-associated injuries are captured in Category D: Procedure-Associated Conditions.

### C19: Patient Trauma

#### Concept

In-hospital injuries, such as fractures, dislocations, burns, etc., not related to medical or surgical procedures

#### Notes

This group does not include injuries associated with a surgical or medical procedure (refer to D19: Patient Trauma).

#### Selection criteria

Codes	Conditions
M96.6– S00–T32 T71	Identified as diagnosis type (2) <b>not in a diagnosis cluster AND</b> U98.20*

#### Code descriptions

Codes	Code descriptions
M96.6–	Fracture of bone following insertion of orthopaedic implant, joint prosthesis, or bone plate
S00–S09	Injuries to the head
S10–S19	Injuries to the neck
S20–S29	Injuries to the thorax
S30–S39	Injuries to the abdomen, lower back, lumbar spine and pelvis
S40–S49	Injuries to the shoulder and upper arm
S50–S59	Injuries to the elbow and forearm
S60–S69	Injuries to the wrist and hand
S70–S79	Injuries to the hip and thigh
S80–S89	Injuries to the knee and lower leg
S90–S99	Injuries to the ankle and foot

Codes	Code descriptions
T00–T07	Injuries involving multiple body regions
T08–T14	Injuries to unspecified parts of trunk, limb or body region
T15–T19	Effects of foreign body entering through natural orifice
T20–T32	Burns and corrosions
T71	Asphyxiation
U98.20	Place of occurrence, hospital

\* Applicable to DAD abstracts from fiscal year 2015–2016 onward.

## Category D: Procedure-Associated Conditions

This category includes conditions associated with medical or surgical procedures. These include misadventures to patients during surgical and medical procedures, events associated with medical devices used for diagnosis and treatment, and abnormal reactions to or complications of surgical or medical procedures. Post-procedural infections are not included in Category D. Refer to Category B: Health Care–Associated Infections.

### D01: Anemia — Hemorrhage

#### Concept

Hemorrhage or hemorrhagic anemia associated with a medical or surgical procedure

#### Notes

1. This clinical group does not include obstetric hemorrhage (refer to A02: Obstetric Hemorrhage and D02: Obstetric Hemorrhage) and hemorrhage or hemorrhagic anemia associated with the delivery of health care or related to the administration of anticoagulants (refer to A01: Anemia — Hemorrhage).
2. Prior to 2018–2019, the blood transfusion indicator was optional to code in British Columbia.

#### Selection criteria

Codes	Conditions
D62 T81.0	Identified as diagnosis type (2) <b>AND</b> Y60–Y84 in the same diagnosis cluster <b>AND</b> documentation of blood transfusion (blood received indicator = 1)

**Code descriptions**

Codes	Code descriptions
D62	Acute posthaemorrhagic anaemia
T81.0	Hemorrhage and haematoma complicating a procedure, not elsewhere classified

**Additional codes: Inclusions**

Codes	Code descriptions
Y60–Y84	Complications of medical and surgical care (refer to Appendix A)

**D02: Obstetric Hemorrhage****Concept**

Hemorrhage from the pelvic area, genital tract, perineum or surgical incision after an instrument-assisted delivery or Caesarean section delivery that requires blood transfusion

**Notes**

1. This clinical group includes hemorrhage due to episiotomy.
2. Refer to A02: Obstetric Hemorrhage for hemorrhage following vaginal delivery without the assistance of instruments.
3. The blood transfusion indicator is optional to code in British Columbia.

**Selection criteria**

Codes	Conditions
<b>O72.002</b> <b>O72.102</b> <b>O72.202</b> <b>O90.202</b>	Identified as diagnosis type (M), (1), (2), (W), (X) or (Y) <b>AND</b> intervention codes 5.MD.53.^, 5.MD.54.^, 5.MD.55.^, 5.MD.56.NN, 5.MD.56.PC, 5.MD.56.NR, 5.MD.56.PF, 5.MD.56.NW, 5.MD.56.PJ or 5.MD.60.^ <b>AND</b> documentation of blood transfusion (blood received indicator = 1)

**Code descriptions**

Codes	Code descriptions
<b>O72.002</b>	Third-stage hemorrhage; delivered with mention of postpartum complication
<b>O72.102</b>	Other immediate postpartum hemorrhage; delivered with mention of postpartum complication
<b>O72.202</b>	Delayed and secondary postpartum hemorrhage; delivered with mention of postpartum complication
<b>O90.202</b>	Hematoma of obstetric wound; delivered with mention of postpartum complication

### Additional codes: Inclusions

Codes	Code descriptions
5.MD.53.^	Forceps traction and rotation delivery
5.MD.54.^	Vacuum traction delivery
5.MD.55.^	Combination of vacuum and forceps delivery
5.MD.56.NN	Breech delivery without episiotomy, partial breech extraction [assisted breech delivery] with forceps to aftercoming head
5.MD.56.PC	Breech delivery with episiotomy, partial breech extraction [assisted breech delivery] with forceps to aftercoming head
5.MD.56.NR	Breech delivery without episiotomy, total breech extraction with forceps to aftercoming head
5.MD.56.PF	Breech delivery with episiotomy, total breech extraction with forceps to aftercoming head
5.MD.56.NW	Breech delivery without episiotomy, unspecified breech extraction with forceps to aftercoming head
5.MD.56.PJ	Breech delivery with episiotomy, unspecified breech extraction with forceps to aftercoming head
5.MD.60.^	Caesarean section delivery

## D03: Obstetric Trauma

### Concept

Lacerations of third degree or greater severity, or other obstetric injury to pelvic organs during an instrument-assisted vaginal delivery

### Notes

1. Refer to A03: Obstetric Trauma for obstetric trauma during a non-instrumented vaginal delivery.
2. This clinical group does not include obstetric trauma during Caesarean section delivery.

## Selection criteria

Codes	Conditions
<b>O70.201*</b> <b>O70.211†</b> <b>O70.221†</b> <b>O70.231†</b> <b>O70.281†</b> <b>O70.291†</b> <b>O70.301</b> <b>O71.181</b> <b>O71.301</b> <b>O71.401</b> <b>O71.501</b> <b>O71.601</b>	Identified as diagnosis type (M), (1), (2), (W), (X) or (Y) <b>AND</b> O10–O16, O21–O26, O28–O37, O40–O46, O48.–, O60–O75, O85–O92, O95.– or O98–O99 with a sixth digit of 1 or 2 or Z37.– <b>AND</b> intervention codes 5.MD.53.^, 5.MD.54.^, 5.MD.55.^, 5.MD.56.NN, 5.MD.56.PC, 5.MD.56.NR, 5.MD.56.PF, 5.MD.56.NW or 5.MD.56.PJ <b>on the same abstract</b>
<b>5.PC.80.JH</b> <b>5.PC.80.JJ</b> <b>5.PC.80.JR</b> <b>5.PC.80.JQ</b> <b>5.PC.80.JU</b> <b>5.PC.80.JL</b>	Identified as an intervention <b>AND</b> O10–O16, O21–O26, O28–O37, O40–O46, O48.–, O60–, O75, O85–O92, O95.– or O98–O99 with a sixth digit of 1 or 2 or Z37.– <b>AND</b> intervention codes 5.MD.53.^, 5.MD.54.^, 5.MD.55.^, 5.MD.56.NN, 5.MD.56.PC, 5.MD.56.NR, 5.MD.56.PF, 5.MD.56.NW or 5.MD.56.PJ <b>on the same abstract</b>

\* Before 2018–2019 data.

† Starting with 2018–2019 data.

## Exclusions

1. Abstracts with intervention codes for Caesarean section delivery (5.MD.60.^)
2. Abstracts indicating a pregnancy with abortive outcome (O04.– **OR** 5.CA.20.^, 5.CA.24.^, 5.CA.88.^, 5.CA.89.^ or 5.CA.93.^, not abandoned)

## Code descriptions

Codes	Code descriptions
<b>O70.201</b>	Third degree perineal laceration during delivery; delivered with or without mention of antepartum condition
<b>O70.211</b>	Third degree perineal laceration during delivery, type 3a, so described, delivered, with or without mention of antepartum condition
<b>O70.221</b>	Third degree perineal laceration during delivery, type 3b, so described, delivered, with or without mention of antepartum condition
<b>O70.231</b>	Third degree perineal laceration during delivery, type 3c, so described, delivered, with or without mention of antepartum condition
<b>O70.281</b>	Third degree perineal laceration during delivery, other specified type, delivered, with or without mention of antepartum condition
<b>O70.291</b>	Third degree perineal laceration during delivery, unspecified type, delivered, with or without mention of antepartum condition

Codes	Code descriptions
<b>O70.301</b>	Fourth degree perineal laceration during delivery; delivered with or without mention of antepartum condition
<b>O71.181</b>	Other rupture of uterus during labour; delivered with or without mention of antepartum condition
<b>O71.301</b>	Obstetric laceration of cervix; delivered with or without mention of antepartum condition
<b>O71.401</b>	Obstetric high vaginal laceration; delivered with or without mention of antepartum condition
<b>O71.501</b>	Other obstetric injury to pelvic organs; delivered with or without mention of antepartum condition
<b>O71.601</b>	Obstetric damage to pelvic joints and ligaments; delivered with or without mention of antepartum condition
<b>5.PC.80.JH</b>	Surgical repair, postpartum of obstetric laceration of corpus uteri [body of uterus]
<b>5.PC.80.JJ</b>	Surgical repair, postpartum of current obstetric laceration of cervix occurring at vaginal delivery
<b>5.PC.80.JR</b>	Surgical repair, postpartum of current obstetric laceration of bladder and urethra
<b>5.PC.80.JQ</b>	Surgical repair, postpartum of current obstetric laceration of rectum and sphincter ani
<b>5.PC.80.JU</b>	Surgical repair, postpartum of current obstetric high vaginal laceration
<b>5.PC.80.JL</b>	Surgical repair, postpartum of current obstetric laceration of broad ligament(s) of uterus

### Additional codes: Inclusions

Codes	Code descriptions
<b>5.MD.53.^</b>	Forceps traction and rotation delivery
<b>5.MD.54.^</b>	Vacuum traction delivery
<b>5.MD.55.^</b>	Combination of vacuum and forceps delivery
<b>5.MD.56.NN</b>	Breech delivery without episiotomy, partial breech extraction [assisted breech delivery] with forceps to aftercoming head

### Additional codes: Exclusions

Codes	Code descriptions
<b>5.MD.60.^</b>	Caesarean section delivery
<b>O10–O16</b> <b>O21–O26</b> <b>O28–O37</b> <b>O40–O46</b> <b>O48.–</b> <b>O60–O75</b> <b>O85–O92</b> <b>O95.–</b> <b>O98–O99</b> <b>Z37.–</b>	Outcome of delivery (refer to Appendix A)

## D04: Birth Trauma

### Concept

Injuries to the newborn during an instrument-assisted or Caesarean section delivery

### Notes

Refer to A04: Birth Trauma for injuries during vaginal delivery without the assistance of instruments.

### Selection criteria

Codes	Conditions
<b>P10–P15</b>	Identified as diagnosis type (M), (1), (2), (W), (X) or (Y) <b>AND</b> Entry Code N* <b>AND</b> Newborns whose mother's abstract has intervention codes for instrument-assisted or Caesarean section delivery,† (5.MD.53.^, 5.MD.54.^, 5.MD.55.^, 5.MD.56.NN, 5.MD.56.PC, 5.MD.56.NR, 5.MD.56.PF, 5.MD.56.NW, 5MD.56.PJ or 5.MD.60.^)‡

### Exclusions

1. Newborn abstracts with brain damage due to birth injury (P10.–, P11.1 or P11.2) as diagnosis type (M) or (1) **AND** preterm and low birth weight (P07.–) as diagnosis type (M), (1) or (2) **OR**
2. Newborn abstracts with termination of pregnancy affecting fetuses and newborns (P96.4) **OR**
3. Newborn abstracts with congenital malformations of the central nervous system (Q00–Q07) as diagnosis type (M) or (1) **OR**
4. Newborn abstracts with congenital malformations and deformations of the musculoskeletal system (Q65–Q79) as diagnosis type (M) or (1)

### Code descriptions

Codes	Code descriptions
<b>P10.–</b>	Intracranial laceration and hemorrhage due to birth injury
<b>P11.–</b>	Other birth injuries to central nervous system
<b>P12.–</b>	Birth injury to scalp
<b>P13.–</b>	Birth injury to skeleton
<b>P14.–</b>	Birth injury to peripheral nervous system
<b>P15.–</b>	Other birth injuries

**Additional codes: Inclusions**

<b>Codes</b>	<b>Code descriptions</b>
<b>5.MD.53.^</b>	Forceps traction and rotation delivery
<b>5.MD.54.^</b>	Vacuum traction delivery
<b>5.MD.55.^</b>	Combination of vacuum and forceps delivery
<b>5.MD.56.NN</b>	Breech delivery without episiotomy, partial breech extraction [assisted breech delivery] with forceps to aftercoming head
<b>5.MD.56.PC</b>	Breech delivery with episiotomy, partial breech extraction [assisted breech delivery] with forceps to aftercoming head
<b>5.MD.56.NR</b>	Breech delivery without episiotomy, total breech extraction with forceps to aftercoming head
<b>5.MD.56.PF</b>	Breech delivery with episiotomy, total breech extraction with forceps to aftercoming head
<b>5.MD.56.NW</b>	Breech delivery without episiotomy, unspecified breech extraction with forceps to aftercoming head
<b>5.MD.56.PJ</b>	Breech delivery with episiotomy, unspecified breech extraction with forceps to aftercoming head
<b>5.MD.60.^</b>	Caesarean section delivery

**Additional codes: Exclusions**

<b>Codes</b>	<b>Code descriptions</b>
<b>P07.–</b>	Disorders related to short gestation and low birth weight, not elsewhere classified
<b>P10.–<sup>§</sup></b>	Intracranial laceration and hemorrhage due to birth injury
<b>P11.1<sup>§</sup></b>	Other specified brain damage due to birth injury
<b>P11.2<sup>§</sup></b>	Unspecified brain damage due to birth injury
<b>P96.4</b>	Termination of pregnancy, affecting fetus and newborn
<b>Q00–Q07</b>	Congenital malformations of the nervous system (refer to Appendix A)
<b>Q65–Q79</b>	Congenital malformations and deformations of the musculoskeletal system (refer to Appendix A)

\* Entry Code N indicates an infant was born alive in the reporting facility.

† Due to the unavailability of chart numbers for Prince Edward Island, birth trauma with and without the assistance of instruments cannot be differentiated; therefore, all birth trauma in P.E.I. is included in A04: Birth Trauma regardless of the use of instruments or method of delivery.

‡ Newborns whose mothers are discharged from acute care facilities in a different fiscal year cannot be linked to the mothers' records; therefore, a few birth trauma cases that belong to D04 could be misclassified to A04, as the linkage is done within a fiscal year. A fiscal year is defined based on discharged date from April 1 of the current year to March 31 of the subsequent year.

§ These codes are part of the selection criteria, except when preterm and low birth weight is also coded. See the exclusion terms in the selection criteria section above.

## D19: Patient Trauma

### Concept

Injuries, fractures, dislocations, burns, etc., associated with a medical or surgical procedure identified during the hospital stay

### Note

Refer to C19: Patient Trauma for injuries, fractures, dislocations, burns, etc., that are not related to medical or surgical procedures.

### Selection criteria

Codes	Conditions
<b>S00–T19 T71</b>	Identified as diagnosis type (2) <b>AND</b> Y60–Y84 <b>in the same diagnosis cluster</b> <b>OR</b> Identified as diagnosis type (3) <b>AND</b> T80–T88 as diagnosis type (2) <b>AND</b> Y60–Y84 <b>in the same diagnosis cluster</b>
<b>M96.6– T20–T32</b>	Identified as diagnosis type (2) <b>AND</b> Y60–Y84 <b>in the same diagnosis cluster</b>

### Code descriptions

Codes	Code descriptions
<b>M96.6–</b>	Fracture of bone following insertion of orthopaedic implant, joint prosthesis, or bone plate
<b>S00–S09</b>	Injuries to the head
<b>S10–S19</b>	Injuries to the neck
<b>S20–S29</b>	Injuries to the thorax
<b>S30–S39</b>	Injuries to the abdomen, lower back, lumbar spine and pelvis
<b>S40–S49</b>	Injuries to the shoulder and upper arm
<b>S50–S59</b>	Injuries to the elbow and forearm
<b>S60–S69</b>	Injuries to the wrist and hand
<b>S70–S79</b>	Injuries to the hip and thigh
<b>S80–S89</b>	Injuries to the knee and lower leg
<b>S90–S99</b>	Injuries to the ankle and foot
<b>T00–T07</b>	Injuries involving multiple body regions
<b>T08–T14</b>	Injuries to unspecified parts of trunk, limb or body region
<b>T15–T19</b>	Effects of foreign body entering through natural orifice
<b>T20–T32</b>	Burns and corrosions
<b>T71</b>	Asphyxiation

**Additional codes: Inclusions**

Codes	Code descriptions
<b>T80–T88</b>	Complications of surgical and medical care, not elsewhere classified (refer to Appendix A)
<b>Y60–Y84</b>	Complications of medical and surgical care (refer to Appendix A)

**D20: Device Failure****Concept**

Mechanical complications of devices, catheters, grafts, implants or prostheses associated with a medical or surgical procedure

**Note**

This clinical group includes mechanical failure and complications of devices: breakdown, displacement, leakage, malposition, obstruction, perforation or protrusion of devices, catheters, grafts, implants or prostheses associated with a medical or surgical procedure.

**Selection criteria**

Codes	Conditions
<b>T82.0–T82.5</b> <b>T83.0–T83.4</b> <b>T84.0–T84.4</b> <b>T85.0–T85.6</b>	Identified as diagnosis type (2) <b>AND Y60–Y84 in the same diagnosis cluster</b>

**Code descriptions**

Codes	Code descriptions
<b>T82.0</b>	Mechanical complication of heart valve prosthesis
<b>T82.1</b>	Mechanical complication of cardiac electronic device
<b>T82.2</b>	Mechanical complication of coronary artery bypass and valve grafts
<b>T82.3</b>	Mechanical complication of other vascular grafts
<b>T82.4</b>	Mechanical complication of vascular dialysis catheter
<b>T82.5</b>	Mechanical complication of other cardiac and vascular devices and implants
<b>T83.0</b>	Mechanical complication of urinary (indwelling) catheter
<b>T83.1</b>	Mechanical complication of other urinary devices and implants
<b>T83.2</b>	Mechanical complication of graft of urinary organ
<b>T83.3</b>	Mechanical complication of intrauterine contraceptive device

Codes	Code descriptions
T83.4	Mechanical complication of other prosthetic devices, implants and grafts in genital tract
T84.0–	Mechanical complication of internal joint prosthesis
T84.1–	Mechanical complication of internal fixation device of bones of limb
T84.2–	Mechanical complication of internal fixation device of other bones
T84.3	Mechanical complication of other bone devices, implants and grafts
T84.4	Mechanical complication of other internal orthopaedic devices, implants and grafts
T85.0	Mechanical complication of ventricular intracranial (communicating) shunt
T85.1	Mechanical complication of implanted electronic stimulator of nervous system
T85.2	Mechanical complication of intraocular lens
T85.3	Mechanical complication of other ocular prosthetic devices, implants and grafts
T85.4	Mechanical complication of breast prosthesis and implant
T85.5	Mechanical complication of gastrointestinal prosthetic devices, implants and grafts
T85.6	Mechanical complication of other specified internal prosthetic devices, implants and grafts

### Additional codes: Inclusions

Codes	Code descriptions
Y60–Y84	Complications of medical and surgical care (refer to Appendix A)

## D21: Laceration/Puncture

### Concept

Unintentional or accidental cut, puncture or perforation during a medical or surgical procedure

### Selection criteria

Codes	Conditions
T81.2	Identified as diagnosis type (2)

### Code descriptions

Codes	Code descriptions
T81.2	Accidental puncture and laceration during a procedure, not elsewhere classified

## D22: Pneumothorax

### Concept

Pneumothorax associated with a medical or surgical procedure

### Selection criteria

Codes	Conditions
<b>J95.80</b>	Identified as diagnosis type (2) <b>AND</b> Y60–Y84 in the same diagnosis cluster
<b>S27.0– S27.2–</b>	Identified as diagnosis type (3) <b>AND</b> T80–T88 as diagnosis type (2) <b>AND</b> Y60–Y84 in the same diagnosis cluster <b>OR</b> Identified as diagnosis type (2) <b>AND</b> Y60–Y84 in the same diagnosis cluster

### Code descriptions

Codes	Code descriptions
<b>J95.80</b>	Post-procedural pneumothorax
<b>S27.0–</b>	Traumatic pneumothorax
<b>S27.2–</b>	Traumatic haemopneumothorax

### Additional codes: Inclusions

Codes	Code descriptions
<b>T80–T88</b>	Complications of surgical and medical care, not elsewhere classified (refer to Appendix A)
<b>Y60–Y84</b>	Complications of medical and surgical care (refer to Appendix A)

## D23: Wound Disruption

### Concept

Disruption of surgical wound during the same hospital stay or an obstetric wound during the delivery episode of care

### Selection criteria

Codes	Conditions
<b>O90.002</b> <b>O90.102</b>	Identified as diagnosis type (M), (1), (2), (W), (X) or (Y)
<b>T81.3</b> <b>T81.83*</b>	Identified as diagnosis type (2) <b>AND</b> Y60–Y84 <b>in the same diagnosis cluster</b>

### Code descriptions

Codes	Code descriptions
<b>O90.002</b>	Disruption of Caesarean section wound; delivered with mention of postpartum complication
<b>O90.102</b>	Disruption of perineal obstetric wound; delivered with mention of postpartum complication
<b>T81.3</b>	Disruption of operation wound, not elsewhere classified
<b>T81.83</b>	Postoperative leak

### Additional codes: Inclusions

Codes	Code descriptions
<b>Y60–Y84</b>	Complications of medical and surgical care (refer to Appendix A)

\* Applicable to DAD abstracts from fiscal year 2015–2016 onward.

## D24: Retained Foreign Body

### Concept

Foreign object or substance unintentionally left in the body during a medical or surgical procedure

### Selection criteria

Codes	Conditions
T81.5– T81.6	Identified as diagnosis type (2)

### Code descriptions

Codes	Code descriptions
T81.5–	Foreign body accidentally left in body cavity or operation wound following a procedure
T81.6	Acute reaction to foreign substance accidentally left during a procedure

## D25: Procedure-Associated Shock

### Concept

Shock during or resulting from a procedure

### Selection criteria

Codes	Conditions
T81.1	Identified as diagnosis type (2) <b>AND</b> Y60–Y84 in the same diagnosis cluster

### Code descriptions

Codes	Code descriptions
T81.1	Shock during or resulting from a procedure, not elsewhere classified

### Additional codes: Inclusions

Codes	Code descriptions
Y60–Y84	Complications of medical and surgical care (refer to Appendix A)

## D26: Selected Serious Events

### Concept

Harm to patients resulting from failure of sterile precautions, contaminated medical or biological substances, failure in suture or ligature, wrong placement of endotracheal tube or performance of inappropriate operation

### Note

This clinical group includes serious, largely preventable patient safety events that should not occur.

### Selection criteria

Codes	Conditions
Y62.0 Y62.1 Y62.2 Y62.3 Y62.4 Y62.5 Y62.6 Y64.– Y65.2 Y65.3 Y65.5	Identified as diagnosis type (9) <b>AND</b> at least 1 additional diagnosis coded as diagnosis type (2) <b>in the same diagnosis cluster</b>

### Code descriptions

Codes	Code descriptions
Y62.0	Failure of sterile precautions during surgical and medical care; during surgical operation
Y62.1	Failure of sterile precautions during surgical and medical care; during infusion or transfusion
Y62.2	Failure of sterile precautions during surgical and medical care; during kidney dialysis or other perfusion
Y62.3	Failure of sterile precautions during surgical and medical care; during injection or immunization
Y62.4	Failure of sterile precautions during surgical and medical care; during endoscopic examination
Y62.5	Failure of sterile precautions during surgical and medical care; during heart catheterization
Y62.6	Failure of sterile precautions during surgical and medical care; during aspiration, puncture and other catheterization
Y64.–	Contaminated medical or biological substances
Y65.2	Failure in suture or ligature during surgical operation
Y65.3	Endotracheal tube wrongly placed during anaesthetic procedure
Y65.5	Performance of inappropriate operation

## 4. Definition of diagnosis type and diagnosis cluster

### Definitions

A **diagnosis type** is an alpha or numeric code signifying the impact the condition had on the patient's care, as evidenced in the physician documentation.

A **diagnosis cluster** is a group of 2 or more ICD-10-CA codes that relate to one another. Assigning the same diagnosis cluster character (uppercase alpha A to Y) to each of the codes in the cluster links these codes together on the abstract.

Diagnosis clustering was made mandatory in 2009–2010 for ICD-10-CA codes used to describe external causes related to complications of medical and surgical care (U07.7, Y40–Y84) and to resistance to antibiotics (U82 and U83) or other antimicrobial drugs (U84).

The following table describes the diagnosis types used throughout the HHI definitions:

Diagnosis types	Descriptions
<b>M</b>	The 1 diagnosis or condition that can be described as being most responsible for the patient's stay in hospital. If there is more than one such condition, the one held most responsible for the greatest portion of the length of stay or greatest use of resources is selected.
<b>1</b>	A condition that impacted care (i.e., a significant comorbidity) and was present prior to hospital admission.
<b>2</b>	A condition that impacted care (i.e., a significant comorbidity) and arose post-admission. If a post-admit comorbidity qualifies as the most responsible diagnosis (MRDx), it must be recorded as both the MRDx and as a diagnosis type (2).
<b>3</b>	A condition that did not impact care (i.e., not a significant comorbidity) or that is recorded to provide detail. A diagnosis type (3) in certain appropriate code combinations — for example, with another code as diagnosis type (2) in a cluster — can be used to determine a significant condition that arose post-admission.
<b>9</b>	A supplementary code (external cause code) used with another diagnosis code that indicates the nature of the condition. A diagnosis type (9) code is accompanied by codes indicating injuries, poisoning or other certain consequences of external causes.
<b>W, X, Y</b>	A condition that is associated with the first/second/third service transfer, respectively.

# Appendices

## Appendix A: ICD-10-CA code descriptions

Diagnosis codes	Descriptions
Poisoning by drugs, medicaments and biological substances (T36–T50)	
T36.–	Poisoning by systemic antibiotics
T37.–	Poisoning by other systemic anti-infectives and antiparasitics
T38.–	Poisoning by hormones and their synthetic substitutes and antagonists, not elsewhere classified
T39.–	Poisoning by nonopioid analgesics, antipyretics and antirheumatics
T40.–	Poisoning by narcotics and psychodysleptics [hallucinogens]
T41.–	Poisoning by anaesthetics and therapeutic gases
T42.–	Poisoning by antiepileptic, sedative-hypnotic and antiparkinsonism drugs
T43.–	Poisoning by psychotropic drugs, not elsewhere classified
T44.–	Poisoning by drugs primarily affecting the autonomic nervous system
T45.–	Poisoning by primarily systemic and haematological agents, not elsewhere classified
T46.–	Poisoning by agents primarily affecting the cardiovascular system
T47.–	Poisoning by agents primarily affecting the gastrointestinal system
T48.–	Poisoning by agents primarily acting on smooth and skeletal muscles and the respiratory system
T49.–	Poisoning by topical agents primarily affecting skin and mucous membrane and by ophthalmological, otorhinolaryngological and dental drugs
T50.–	Poisoning by diuretics and other and unspecified drugs, medicaments and biological substances
Complications of surgical and medical care, not elsewhere classified (T80–T88)	
T80.–	Complications following infusion, transfusion and therapeutic injection
T81.–	Complications of procedures, not elsewhere classified
T82.–	Complications of cardiac and vascular prosthetic devices, implants and grafts
T83.–	Complications of genitourinary prosthetic devices, implants and grafts
T84.–	Complications of internal orthopedic prosthetic devices, implants and grafts
T85.–	Complications of other internal prosthetic devices, implants and grafts
T86.–	Failure and rejection of transplanted organs and tissues
T87.–	Complications peculiar to reattachment and amputation
T88.–	Other complications of surgical and medical care, not elsewhere classified

<b>Diagnosis codes</b>	<b>Descriptions</b>
Resistance to antibiotics and other antimicrobial drugs (U82–U84)	
<b>U82.–</b>	Resistance to betalactam antibiotics
<b>U83.–</b>	Resistance to other antibiotics
<b>U84.–</b>	Resistance to other antimicrobial drugs
Outcome of delivery (with a sixth digit of 1 or 2)	
<b>O10.–</b>	Pre-existing hypertension complicating pregnancy, childbirth and the puerperium
<b>O11.–</b>	Pre-eclampsia superimposed on chronic hypertension
<b>O12.–</b>	Gestational [pregnancy-induced] oedema and proteinuria without hypertension
<b>O13.–</b>	Gestational [pregnancy-induced] hypertension
<b>O14.–</b>	Pre-eclampsia
<b>O15.–</b>	Eclampsia
<b>O16.–</b>	Unspecified maternal hypertension
<b>O21.–</b>	Excessive vomiting in pregnancy
<b>O22.–</b>	Venous complications and haemorrhoids in pregnancy
<b>O23.–</b>	Infections of genitourinary tract in pregnancy
<b>O24.–</b>	Diabetes mellitus in pregnancy
<b>O25.–</b>	Malnutrition in pregnancy
<b>O26.–</b>	Maternal care for other conditions predominantly related to pregnancy
<b>O28.–</b>	Abnormal findings on antenatal screening of mother
<b>O29.–</b>	Complications of anaesthesia during pregnancy
<b>O30.–</b>	Multiple gestation
<b>O31.–</b>	Complications specific to multiple gestation
<b>O32.–</b>	Maternal care for known or suspected malpresentation of fetus
<b>O33.–</b>	Maternal care for known or suspected disproportion
<b>O34.–</b>	Maternal care for known or suspected abnormality of pelvic organs
<b>O35.–</b>	Maternal care for known or suspected fetal abnormality and damage
<b>O36.–</b>	Maternal care for other known or suspected fetal problems
<b>O37.–</b>	Maternal care for decreased fetal movements

<b>Diagnosis codes</b>	<b>Descriptions</b>
Outcome of delivery (with a sixth digit of 1 or 2) (continued)	
<b>O40.-</b>	Polyhydramnios
<b>O41.-</b>	Other disorders of amniotic fluid and membranes
<b>O42.-</b>	Premature rupture of membranes
<b>O43.-</b>	Placental disorders
<b>O44.-</b>	Placenta praevia
<b>O45.-</b>	Premature separation of placenta [abruptio placentae]
<b>O46.-</b>	Antepartum haemorrhage, not elsewhere classified
<b>O48.-</b>	Prolonged pregnancy
<b>O60.-</b>	Preterm labour and delivery
<b>O61.-</b>	Failed induction of labour
<b>O62.-</b>	Abnormalities of forces of labour
<b>O63.-</b>	Long labour
<b>O64.-</b>	Obstructed labour due to malposition and malpresentation of fetus
<b>O65.-</b>	Obstructed labour due to maternal pelvic abnormality
<b>O66.-</b>	Other obstructed labour
<b>O67.-</b>	Labour and delivery complicated by intrapartum haemorrhage, not elsewhere classified
<b>O68.-</b>	Labour and delivery complicated by fetal stress [distress]
<b>O69.-</b>	Labour and delivery complicated by umbilical cord complications
<b>O70.-</b>	Perineal laceration during delivery
<b>O71.-</b>	Other obstetric trauma
<b>O72.-</b>	Postpartum haemorrhage
<b>O73.-</b>	Retained placenta and membranes, without haemorrhage
<b>O74.-</b>	Complications of anaesthesia during labour and delivery
<b>O75.-</b>	Other complications of labour and delivery, not elsewhere classified
<b>O85.-</b>	Puerperal sepsis
<b>O86.-</b>	Other puerperal infections
<b>O87.-</b>	Venous complications and haemorrhoids in the puerperium
<b>O88.-</b>	Obstetric embolism

<b>Diagnosis codes</b>	<b>Descriptions</b>
Outcome of delivery (with a sixth digit of 1 or 2) (continued)	
<b>O89.-</b>	Complications of anaesthesia during the puerperium
<b>O90.-</b>	Complications of the puerperium, not elsewhere classified
<b>O91.-</b>	Infections of breast associated with childbirth
<b>O92.-</b>	Other disorders of breast and lactation associated with childbirth
<b>O95.-</b>	Obstetric death of unspecified cause
<b>O98.-</b>	Maternal infectious and parasitic diseases classifiable elsewhere but complicating pregnancy, childbirth and the puerperium
<b>O99.-</b>	Other maternal diseases classifiable elsewhere but complicating pregnancy, childbirth and the puerperium
<b>Z37.-</b>	Outcome of delivery
Congenital malformations of the nervous system (Q00–Q07)	
<b>Q00.-</b>	Anencephaly and similar malformations
<b>Q01.-</b>	Encephalocele
<b>Q02.-</b>	Microcephaly
<b>Q03.-</b>	Congenital hydrocephalus
<b>Q04.-</b>	Other congenital malformations of brain
<b>Q05.-</b>	Spina bifida
<b>Q06.-</b>	Other congenital malformations of spinal cord
<b>Q07.-</b>	Other congenital malformations of nervous system
Congenital malformations and deformations of the musculoskeletal system (Q65–Q79)	
<b>Q65.-</b>	Congenital deformities of hip
<b>Q66.-</b>	Congenital deformities of feet
<b>Q67.-</b>	Congenital musculoskeletal deformities of head, face, spine and chest
<b>Q68.-</b>	Other congenital musculoskeletal deformities
<b>Q69.-</b>	Polydactyly
<b>Q70.-</b>	Syndactyly
<b>Q71.-</b>	Reduction defects of upper limb
<b>Q72.-</b>	Reduction defects of lower limb
<b>Q73.-</b>	Reduction defects of unspecified limb

<b>Diagnosis codes</b>	<b>Descriptions</b>
Congenital malformations and deformations of the musculoskeletal system (Q65–Q79) (continued)	
<b>Q74.–</b>	Other congenital malformations of limb(s)
<b>Q75.–</b>	Other congenital malformations of skull and face bones
<b>Q76.–</b>	Congenital malformations of spine and bony thorax
<b>Q77.–</b>	Osteochondrodysplasia with defects of growth of tubular bones and spine
<b>Q78.–</b>	Other osteochondrodysplasias
<b>Q79.–</b>	Congenital malformations of the musculoskeletal system, not elsewhere classified
Drugs, medicaments and biological substances causing adverse effects in therapeutic use (Y40–Y59)	
<b>Y40.–</b>	Systemic antibiotics
<b>Y41.–</b>	Other systemic anti-infectives and antiparasitics
<b>Y42.–</b>	Hormones and their synthetic substitutes and antagonists, not elsewhere classified
<b>Y43.–</b>	Primarily systemic agents
<b>Y44.–</b>	Agents primarily affecting blood constituents
<b>Y45.–</b>	Analgesics, antipyretics and anti-inflammatory drugs
<b>Y46.–</b>	Antiepileptics and antiparkinsonism drugs
<b>Y47.–</b>	Sedatives, hypnotics and antianxiety drugs
<b>Y48.–</b>	Anesthetics and therapeutic gases
<b>Y49.–</b>	Psychotropic drugs, not elsewhere classified
<b>Y50.–</b>	Central nervous system stimulants, not elsewhere classified
<b>Y51.–</b>	Drugs primarily affecting the autonomic nervous system
<b>Y52.–</b>	Agents primarily affecting the cardiovascular system
<b>Y53.–</b>	Agents primarily affecting the gastrointestinal system
<b>Y54.–</b>	Agents primarily affecting water-balance and mineral uric acid metabolism
<b>Y55.–</b>	Agents primarily acting on smooth and skeletal muscles and the respiratory system
<b>Y56.–</b>	Topical agents primarily affecting skin and mucous membrane and ophthalmological, otorhinolaryngological and dental drugs
<b>Y57.–</b>	Other and unspecified drugs and medicaments
<b>Y58.–</b>	Bacterial vaccines
<b>Y59.–</b>	Other and unspecified vaccines and biological substances

<b>Diagnosis codes</b>	<b>Descriptions</b>
<b>Misadventures to patients during surgical and medical care (Y60–Y69)</b>	
<b>Y60.–</b>	Unintentional cut, puncture, perforation or hemorrhage during surgical and medical care
<b>Y61.–</b>	Foreign object accidentally left in body during surgical and medical care
<b>Y62.–</b>	Failure of sterile precautions during surgical and medical care
<b>Y63.–</b>	Failure in dosage during surgical and medical care (excludes accidental overdose of drug or wrong drug given in error ( <u>X40–X44</u> ))
<b>Y64.–</b>	Contaminated medical or biological substances
<b>Y65.–</b>	Other misadventures during surgical and medical care
<b>Y66</b>	Nonadministration of surgical and medical care
<b>Y69</b>	Unspecified misadventure during surgical and medical care
<b>Medical devices associated with adverse incidents in diagnostic and therapeutic use (Y70–Y82)</b>	
<b>Y70.–</b>	Anesthesiology devices associated with adverse incidents
<b>Y71.–</b>	Cardiovascular devices associated with adverse incidents
<b>Y72.–</b>	Otorhinolaryngological devices associated with adverse incidents
<b>Y73.–</b>	Gastroenterology and urology devices associated with adverse incidents
<b>Y74.–</b>	General hospital and personal-use devices associated with adverse incidents
<b>Y75.–</b>	Neurological devices associated with adverse incidents
<b>Y76.–</b>	Obstetric and gynecological devices associated with adverse incidents
<b>Y77.–</b>	Ophthalmic devices associated with adverse incidents
<b>Y78.–</b>	Radiological devices associated with adverse incidents
<b>Y79.–</b>	Orthopedic devices associated with adverse incidents
<b>Y80.–</b>	Physical medicine devices associated with adverse incidents
<b>Y81.–</b>	General- and plastic-surgery devices associated with adverse incidents
<b>Y82.–</b>	Other and unspecified medical devices associated with adverse incidents
<b>Surgical and other medical procedures as the cause of abnormal reaction of the patient, or of later complication, without mention of misadventure at the time of the procedure (Y83–Y84)</b>	
<b>Y83.–</b>	Surgical operation and other surgical procedures as the cause of abnormal reaction of the patient, or of later complication, without mention of misadventure at the time of the procedure
<b>Y84.–</b>	Other medical procedures as the cause of abnormal reaction of the patient, or of later complication, without mention of misadventure at the time of the procedure

## Appendix B: List of ICD-10-CA infection codes

This list includes infection codes that have unspecified bacterial microorganisms, other bacterial microorganisms (that can include MRSA and VRE) or no microorganism in their descriptions (except for staphylococcal infections). This list is applicable to the definitions for MRSA and for VRE only.

Diagnosis codes	Descriptions
<b>A04.8</b>	Other specified bacterial intestinal infections
<b>A04.9</b>	Bacterial intestinal infection, unspecified
<b>A05.0</b>	Foodborne staphylococcal intoxication
<b>A05.88</b>	Other specified bacterial foodborne intoxications
<b>A05.9</b>	Bacterial foodborne intoxication, unspecified
<b>A09.–</b>	Other gastroenteritis and colitis of infectious and unspecified origin
<b>A41.2</b>	Sepsis due to unspecified <i>Staphylococcus</i>
<b>A41.9</b>	Sepsis, unspecified
<b>A48.3</b>	Toxic shock syndrome
<b>A49.0</b>	Staphylococcal infection, unspecified site
<b>A49.8</b>	Other bacterial infections of unspecified site
<b>A49.9</b>	Bacterial infection, unspecified
<b>D73.3</b>	Abscess of spleen
<b>E06.0</b>	Acute thyroiditis
<b>E06.1</b>	Subacute thyroiditis
<b>E06.9</b>	Thyroiditis, unspecified
<b>E10.51</b>	Type 1 diabetes mellitus with peripheral angiopathy with gangrene
<b>E10.71</b>	Type 1 diabetes mellitus with foot ulcer (angiopathic) (neuropathic) with gangrene
<b>E11.51</b>	Type 2 diabetes mellitus with peripheral angiopathy with gangrene
<b>E11.71</b>	Type 2 diabetes mellitus with foot ulcer (angiopathic) (neuropathic) with gangrene
<b>E13.51</b>	Other specified diabetes mellitus with peripheral angiopathy with gangrene
<b>E13.71</b>	Other specified diabetes mellitus with foot ulcer (angiopathic) (neuropathic) with gangrene
<b>E14.51</b>	Unspecified diabetes mellitus with peripheral angiopathy with gangrene

<b>Diagnosis codes</b>	<b>Descriptions</b>
<b>E14.71</b>	Unspecified diabetes mellitus with foot ulcer (angiopathic) (neuropathic) with gangrene
<b>E32.1</b>	Abscess of thymus
<b>G00.3</b>	Staphylococcal meningitis
<b>G00.8</b>	Other bacterial meningitis
<b>G00.9</b>	Bacterial meningitis, unspecified
<b>G04.0</b>	Acute disseminated encephalitis
<b>G04.2</b>	Bacterial meningoencephalitis and meningomyelitis, not elsewhere classified
<b>G04.8</b>	Other encephalitis, myelitis and encephalomyelitis
<b>G04.9</b>	Encephalitis, myelitis and encephalomyelitis, unspecified
<b>G06.–</b>	Intracranial and intraspinal abscess and granuloma
<b>G07</b>	Intracranial and intraspinal abscess and granuloma in diseases classified elsewhere
<b>G08</b>	Intracranial and intraspinal phlebitis and thrombophlebitis
<b>G37.3</b>	Acute transverse myelitis in demyelinating disease of central nervous system
<b>H00.0</b>	Hordeolum and other deep inflammation of eyelid
<b>H00.1</b>	Chalazion
<b>H01.0</b>	Blepharitis
<b>H03.1</b>	Involvement of eyelid in other infectious diseases classified elsewhere
<b>H04.0</b>	Dacryoadenitis
<b>H04.3</b>	Acute and unspecified inflammation of lacrimal passages
<b>H05.0</b>	Acute inflammation of orbit
<b>H10.0</b>	Mucopurulent conjunctivitis
<b>H10.2</b>	Other acute conjunctivitis
<b>H10.3</b>	Acute conjunctivitis, unspecified
<b>H10.5</b>	Blepharoconjunctivitis
<b>H10.8</b>	Other conjunctivitis
<b>H10.9</b>	Conjunctivitis, unspecified
<b>H13.1</b>	Conjunctivitis in infectious and parasitic diseases classified elsewhere
<b>H13.2</b>	Conjunctivitis in other diseases classified elsewhere
<b>H15.0</b>	Scleritis

<b>Diagnosis codes</b>	<b>Descriptions</b>
<b>H15.1</b>	Episcleritis
<b>H16.–</b>	Keratitis
<b>H19.0</b>	Scleritis and episcleritis in diseases classified elsewhere
<b>H19.2</b>	Keratitis and keratoconjunctivitis in other infectious and parasitic diseases classified elsewhere
<b>H20.0</b>	Acute and subacute iridocyclitis
<b>H20.8</b>	Other iridocyclitis
<b>H20.9</b>	Iridocyclitis, unspecified
<b>H22.0</b>	Iridocyclitis in infectious and parasitic diseases classified elsewhere
<b>H30.2</b>	Posterior cyclitis
<b>H32.0</b>	Chorioretinal inflammation in infectious and parasitic diseases classified elsewhere
<b>H44.0</b>	Purulent endophthalmitis
<b>H45.1</b>	Endophthalmitis in diseases classified elsewhere
<b>H48.1</b>	Retrobulbar neuritis in diseases classified elsewhere
<b>H60.0</b>	Abscess of external ear
<b>H60.1</b>	Cellulitis of external ear
<b>H60.2</b>	Malignant otitis externa
<b>H60.3</b>	Other infective otitis externa
<b>H60.9</b>	Otitis externa, unspecified
<b>H62.0</b>	Otitis externa in bacterial diseases classified elsewhere
<b>H62.3</b>	Otitis externa in other infectious and parasitic diseases classified elsewhere
<b>H66.0</b>	Acute suppurative otitis media
<b>H66.4</b>	Suppurative otitis media, unspecified
<b>H66.9</b>	Otitis media, unspecified
<b>H67.0</b>	Otitis media in bacterial diseases classified elsewhere
<b>H68.0</b>	Eustachian salpingitis
<b>H70.0</b>	Acute mastoiditis
<b>H70.2</b>	Petrositis
<b>H70.8</b>	Other mastoiditis and related conditions

<b>Diagnosis codes</b>	<b>Descriptions</b>
<b>H70.9</b>	Mastoiditis, unspecified
<b>H73.0</b>	Acute myringitis
<b>H75.0</b>	Mastoiditis in infectious and parasitic diseases classified elsewhere
<b>H81.2</b>	Vestibular neuronitis
<b>H83.0</b>	Labyrinthitis
<b>H94.0</b>	Acoustic neuritis in infectious and parasitic diseases classified elsewhere
<b>I30.1</b>	Infective pericarditis
<b>I30.9</b>	Acute pericarditis, unspecified
<b>I32.0</b>	Pericarditis in bacterial diseases classified elsewhere
<b>I32.1</b>	Pericarditis in other infectious and parasitic diseases classified elsewhere
<b>I33.0</b>	Acute and subacute infective endocarditis
<b>I33.9</b>	Acute endocarditis, unspecified
<b>I38</b>	Endocarditis, valve unspecified
<b>I39.8</b>	Endocarditis, valve unspecified, in diseases classified elsewhere
<b>I40.0</b>	Infective myocarditis
<b>I40.9</b>	Acute myocarditis, unspecified
<b>I51.4</b>	Myocarditis, unspecified
<b>I77.6</b>	Arteritis, unspecified
<b>I79.1</b>	Aortitis in diseases classified elsewhere
<b>I80.–</b>	Phlebitis and thrombophlebitis
<b>I88.0</b>	Nonspecific mesenteric lymphadenitis
<b>I88.8</b>	Other nonspecific lymphadenitis
<b>I88.9</b>	Nonspecific lymphadenitis, unspecified
<b>I89.1</b>	Lymphangitis
<b>J01.–</b>	Acute sinusitis
<b>J02.8</b>	Acute pharyngitis due to other specified organisms
<b>J02.9</b>	Acute pharyngitis, unspecified
<b>J03.8</b>	Acute tonsillitis due to other specified organisms
<b>J03.9</b>	Acute tonsillitis, unspecified

<b>Diagnosis codes</b>	<b>Descriptions</b>
<b>J04.–</b>	Acute laryngitis and tracheitis
<b>J05.–</b>	Acute obstructive laryngitis [croup] and epiglottitis
<b>J06.–</b>	Acute upper respiratory infections of multiple and unspecified sites
<b>J15.2</b>	Pneumonia due to <i>Staphylococcus</i>
<b>J15.8</b>	Other bacterial pneumonia
<b>J15.9</b>	Bacterial pneumonia, unspecified
<b>J16.8</b>	Pneumonia due to other specified infectious organisms
<b>J18.–</b>	Pneumonia, organism unspecified
<b>J20.88</b>	Acute bronchitis due to other specified organisms
<b>J20.9</b>	Acute bronchitis, unspecified
<b>J21.8</b>	Acute bronchiolitis due to other specified organisms
<b>J21.9</b>	Acute bronchiolitis, unspecified
<b>J22</b>	Unspecified acute lower respiratory infection
<b>J34.0</b>	Abscess, furuncle and carbuncle of nose
<b>J36</b>	Peritonsillar abscess
<b>J39.0</b>	Retropharyngeal and parapharyngeal abscess
<b>J39.1</b>	Other abscess of pharynx
<b>J40</b>	Bronchitis, not specified as acute or chronic
<b>J44.0</b>	Chronic obstructive pulmonary disease with acute lower respiratory infection
<b>J47</b>	Bronchiectasis
<b>J69.–</b>	Pneumonitis due to solids and liquids
<b>J85.–</b>	Abscess of lung and mediastinum
<b>J86.–</b>	Pyothorax
<b>J95.01</b>	Infection of tracheostomy stoma
<b>J95.88</b>	Other postprocedural respiratory disorders
<b>J98.5</b>	Diseases of mediastinum, not elsewhere classified
<b>K04.0</b>	Pulpitis
<b>K04.4</b>	Acute apical periodontitis of pulpal origin
<b>K04.6</b>	Periapical abscess with sinus

<b>Diagnosis codes</b>	<b>Descriptions</b>
<b>K04.7</b>	Periapical abscess without sinus
<b>K05.0</b>	Acute gingivitis
<b>K05.2</b>	Acute periodontitis
<b>K10.2</b>	Inflammatory conditions of jaws
<b>K11.2</b>	Sialoadenitis
<b>K11.3</b>	Abscess of salivary gland
<b>K12.2</b>	Cellulitis and abscess of mouth
<b>K14.0</b>	Glossitis
<b>K14.2</b>	Median rhomboid glossitis
<b>K20</b>	Oesophagitis
<b>K35.–</b>	Acute appendicitis
<b>K36</b>	Other appendicitis
<b>K37</b>	Unspecified appendicitis
<b>K57.0</b>	Diverticular disease of small intestine with perforation and abscess
<b>K57.2</b>	Diverticular disease of large intestine with perforation and abscess
<b>K57.4</b>	Diverticular disease of both small and large intestine with perforation and abscess
<b>K57.8</b>	Diverticular disease of intestine, part unspecified, with perforation and abscess
<b>K61.–</b>	Abscess of anal and rectal regions
<b>K62.8</b>	Other specified diseases of anus and rectum
<b>K63.0</b>	Abscess of intestine
<b>K65.–</b>	Peritonitis
<b>K75.0</b>	Abscess of liver
<b>K75.1</b>	Phlebitis of portal vein
<b>K75.3</b>	Granulomatous hepatitis, not elsewhere classified
<b>K77.0</b>	Liver disorders in infectious and parasitic diseases classified elsewhere
<b>K80.0–</b>	Calculus of gallbladder with acute cholecystitis
<b>K80.1–</b>	Calculus of gallbladder with other cholecystitis
<b>K80.3–</b>	Calculus of bile duct with cholangitis
<b>K80.4–</b>	Calculus of bile duct with cholecystitis

<b>Diagnosis codes</b>	<b>Descriptions</b>
<b>K81.–</b>	Cholecystitis
<b>K82.2</b>	Perforation of gallbladder
<b>K83.0–</b>	Cholangitis
<b>K83.2</b>	Perforation of bile duct
<b>K85.8</b>	Other acute pancreatitis
<b>K85.9</b>	Acute pancreatitis, unspecified
<b>K91.41</b>	Infection of colostomy stoma
<b>K91.44</b>	Infection of enterostomy stoma
<b>K91.61</b>	Infection of gastrostomy stoma
<b>L00</b>	Staphylococcal scalded skin syndrome
<b>L01.–</b>	Impetigo
<b>L02.–</b>	Cutaneous abscess, furuncle and carbuncle
<b>L03.–</b>	Cellulitis
<b>L04.–</b>	Acute lymphadenitis
<b>L05.0</b>	Pilonidal cyst with abscess
<b>L08.–</b>	Other local infections of skin and subcutaneous tissue
<b>L30.3</b>	Infective dermatitis
<b>L30.9</b>	Dermatitis, unspecified
<b>M00.0–</b>	Staphylococcal arthritis and polyarthritis
<b>M00.8–</b>	Arthritis and polyarthritis due to other specified bacterial agents
<b>M00.9–</b>	Pyogenic arthritis, unspecified
<b>M01.3–</b>	Arthritis in other bacterial diseases classified elsewhere
<b>M46.2–</b>	Osteomyelitis of vertebra
<b>M46.3–</b>	Infection of intervertebral disc (pyogenic)
<b>M46.4–</b>	Discitis, unspecified
<b>M46.5–</b>	Other infective spondylopathies
<b>M60.0–</b>	Infective myositis
<b>M60.9–</b>	Myositis, unspecified
<b>M65.0–</b>	Abscess of tendon sheath

<b>Diagnosis codes</b>	<b>Descriptions</b>
<b>M65.1-</b>	Other infective (teno)synovitis
<b>M71.0-</b>	Abscess of bursa
<b>M71.1-</b>	Other infective bursitis
<b>M72.6-</b>	Necrotizing fasciitis
<b>M86.0-</b>	Acute haematogenous osteomyelitis
<b>M86.1-</b>	Other acute osteomyelitis
<b>M86.2-</b>	Subacute osteomyelitis
<b>M86.8-</b>	Other osteomyelitis
<b>M86.9-</b>	Osteomyelitis, unspecified
<b>M90.1</b>	Periostitis in other infectious diseases classified elsewhere
<b>M90.2</b>	Osteopathy in other infectious diseases classified elsewhere
<b>N08.0</b>	Glomerular disorders in infectious and parasitic diseases classified elsewhere
<b>N10</b>	Acute tubulo-interstitial nephritis
<b>N12</b>	Tubulo-interstitial nephritis, not specified as acute or chronic
<b>N13.6</b>	Pyonephrosis
<b>N15.1</b>	Renal and perinephric abscess
<b>N16.0</b>	Renal tubulo-interstitial disorders in infectious and parasitic diseases classified elsewhere
<b>N29.1</b>	Other disorders of kidney and ureter in infectious and parasitic diseases classified elsewhere
<b>N30.0</b>	Acute cystitis
<b>N30.8</b>	Other cystitis
<b>N30.9</b>	Cystitis, unspecified
<b>N33.8</b>	Bladder disorders in other diseases classified elsewhere
<b>N34.-</b>	Urethritis and urethral syndrome
<b>N37.0</b>	Urethritis in diseases classified elsewhere
<b>N39.0</b>	Urinary tract infection, site not specified
<b>N41.0</b>	Acute prostatitis
<b>N41.2</b>	Abscess of prostate
<b>N41.3</b>	Prostatocystitis

<b>Diagnosis codes</b>	<b>Descriptions</b>
<b>N41.4</b>	Granulomatous prostatitis
<b>N41.8</b>	Other inflammatory diseases of prostate
<b>N41.9</b>	Inflammatory disease of prostate, unspecified
<b>N43.1</b>	Infected hydrocele
<b>N45.–</b>	Orchitis and epididymitis
<b>N48.1</b>	Balanoposthitis
<b>N48.2–</b>	Other inflammatory disorders of penis
<b>N49.–</b>	Inflammatory disorders of male genital organs, not elsewhere classified
<b>N61</b>	Inflammatory disorders of breast
<b>N70.0</b>	Acute salpingitis and oophoritis
<b>N70.9</b>	Salpingitis and oophoritis, unspecified
<b>N71.0</b>	Acute inflammatory disease of uterus
<b>N71.9</b>	Inflammatory disease of uterus, unspecified
<b>N72</b>	Inflammatory disease of cervix uteri
<b>N73.0</b>	Acute parametritis and pelvic cellulitis
<b>N73.2</b>	Unspecified parametritis and pelvic cellulitis
<b>N73.3</b>	Female acute pelvic peritonitis
<b>N73.5</b>	Female pelvic peritonitis, unspecified
<b>N73.6</b>	Female pelvic peritoneal adhesions
<b>N73.8</b>	Other specified female pelvic inflammatory diseases
<b>N73.9</b>	Female pelvic inflammatory disease, unspecified
<b>N74.8</b>	Female pelvic inflammatory disorders in other diseases classified elsewhere
<b>N75.1</b>	Abscess of Bartholin's gland
<b>N76.0</b>	Acute vaginitis
<b>N76.1</b>	Subacute and chronic vaginitis
<b>N76.2</b>	Acute vulvitis
<b>N76.3</b>	Subacute and chronic vulvitis
<b>N76.4</b>	Abscess of vulva
<b>N76.88</b>	Other specified inflammation of vagina and vulva

<b>Diagnosis codes</b>	<b>Descriptions</b>
<b>N77.0</b>	Ulceration of vulva in infectious and parasitic diseases classified elsewhere
<b>N77.1</b>	Vaginitis, vulvitis and vulvovaginitis in infectious and parasitic diseases classified elsewhere
<b>N98.0</b>	Infection associated with artificial insemination
<b>N99.51</b>	Infection of external stoma of urinary tract
<b>O03.0</b>	Spontaneous abortion, incomplete, complicated by genital tract and pelvic infection
<b>O03.5</b>	Spontaneous abortion, complete or unspecified, complicated by genital tract and pelvic infection
<b>O04.0</b>	Medical abortion, incomplete, complicated by genital tract and pelvic infection
<b>O04.5</b>	Medical abortion, complete or unspecified, complicated by genital tract and pelvic infection
<b>O05.0</b>	Other abortion, incomplete, complicated by genital tract and pelvic infection
<b>O05.5</b>	Other abortion, complete or unspecified, complicated by genital tract and pelvic infection
<b>O08.0–</b>	Complications following abortion and ectopic and molar pregnancy; genital tract and pelvic infection
<b>O08.2</b>	Complications following abortion and ectopic and molar pregnancy; embolism
<b>O08.8</b>	Complications following abortion and ectopic and molar pregnancy; other complications
<b>O22.9</b>	Venous complication in pregnancy, unspecified
<b>O23.–</b>	Infections of genitourinary tract in pregnancy
<b>O41.1–</b>	Infection of amniotic sac and membranes
<b>O75.3–</b>	Other infection during labour
<b>O85.–</b>	Puerperal sepsis
<b>O86.–</b>	Other puerperal infections
<b>O87.0–</b>	Superficial thrombophlebitis in the puerperium
<b>O87.1–</b>	Deep phlebothrombosis in the puerperium
<b>O87.9–</b>	Venous complication in the puerperium, unspecified
<b>O88.3–</b>	Obstetric pyaemic and septic embolism
<b>O89.0–</b>	Pulmonary complications of anaesthesia during the puerperium
<b>O91.–</b>	Infections of breast associated with childbirth
<b>O98.8–</b>	Other maternal infectious and parasitic diseases complicating pregnancy, childbirth and the puerperium

<b>Diagnosis codes</b>	<b>Descriptions</b>
<b>O99.5–</b>	Diseases of the respiratory system complicating pregnancy, childbirth and the puerperium
<b>O99.8–</b>	Other specified diseases and conditions complicating pregnancy, childbirth and the puerperium
<b>P00.2</b>	Fetus and newborn affected by maternal infectious and parasitic diseases
<b>P02.7</b>	Fetus and newborn affected by chorioamnionitis
<b>P23.2</b>	Congenital pneumonia due to <i>Staphylococcus</i>
<b>P23.6</b>	Congenital pneumonia due to other bacterial agents
<b>P23.8</b>	Congenital pneumonia due to other organisms
<b>P23.9</b>	Congenital pneumonia, unspecified
<b>P36.2</b>	Sepsis of newborn due to <i>Staphylococcus aureus</i>
<b>P36.8</b>	Other bacterial sepsis of newborn
<b>P36.9</b>	Bacterial sepsis of newborn, unspecified
<b>P37.8</b>	Other specified congenital infectious and parasitic diseases
<b>P37.9</b>	Congenital infectious and parasitic disease, unspecified
<b>P38</b>	Omphalitis of newborn with or without mild haemorrhage
<b>P39.–</b>	Other infections specific to the perinatal period
<b>P58.2</b>	Neonatal jaundice due to infection
<b>P77</b>	Necrotizing enterocolitis of fetus and newborn
<b>P78.1</b>	Other neonatal peritonitis
<b>R02</b>	Gangrene, not elsewhere classified
<b>R57.2</b>	Septic shock
<b>R57.8</b>	Other shock
<b>R65.0</b>	Systemic inflammatory response syndrome of infectious origin without organ failure
<b>R65.1</b>	Systemic inflammatory response syndrome of infectious origin with acute organ failure
<b>S01.01</b>	Open wound of scalp, complicated
<b>S01.11</b>	Open wound of eyelid and periocular area, complicated
<b>S01.21</b>	Open wound of nose, complicated
<b>S01.31</b>	Open wound of ear, complicated
<b>S01.41</b>	Open wound of cheek and temporomandibular area, complicated

<b>Diagnosis codes</b>	<b>Descriptions</b>
<b>S01.51</b>	Open wound of lip and oral cavity, complicated
<b>S01.71</b>	Multiple open wounds of head, complicated
<b>S01.81</b>	Open wounds of other parts of head, complicated
<b>S01.91</b>	Open wound of head, part unspecified, complicated
<b>S11.01</b>	Open wound involving larynx and trachea, complicated
<b>S11.11</b>	Open wound involving thyroid gland, complicated
<b>S11.21</b>	Open wound involving pharynx and cervical esophagus, complicated
<b>S11.71</b>	Multiple open wounds of neck, complicated
<b>S11.81</b>	Open wound of other parts of neck, complicated
<b>S11.91</b>	Open wound of neck, part unspecified, complicated
<b>S21.01</b>	Open wound of breast, complicated
<b>S21.11</b>	Open wound of front wall of thorax, complicated
<b>S21.21</b>	Open wound of back wall of thorax, complicated
<b>S21.71</b>	Multiple open wounds of thoracic wall, complicated
<b>S21.81</b>	Open wound of other parts of thorax, complicated
<b>S21.91</b>	Open wound of thorax, part unspecified, complicated
<b>S31.001</b>	Open wound of lower back and pelvis, complicated
<b>S31.101</b>	Open wound of upper abdominal wall, complicated
<b>S31.111</b>	Open wound of epigastric region of abdominal wall, complicated
<b>S31.121</b>	Open wound of periumbilical region of abdominal wall, complicated
<b>S31.131</b>	Open wound of lower abdominal wall, complicated
<b>S31.191</b>	Open wound of unspecified site of abdominal wall, complicated
<b>S31.201</b>	Open wound of penis, complicated
<b>S31.301</b>	Open wound of scrotum and testes, complicated
<b>S31.401</b>	Open wound of vagina and vulva, complicated
<b>S31.501</b>	Open wound of other and unspecified external genital organs, complicated
<b>S31.701</b>	Multiple open wounds of abdomen, lower back and pelvis, complicated
<b>S31.801</b>	Open wound of other and unspecified parts of abdomen, complicated
<b>S41.01</b>	Open wound of shoulder, complicated

<b>Diagnosis codes</b>	<b>Descriptions</b>
<b>S41.11</b>	Open wound of upper arm, complicated
<b>S41.71</b>	Multiple open wounds of shoulder and upper arm, complicated
<b>S41.81</b>	Open wound of other and unspecified parts of shoulder girdle, complicated
<b>S51.01</b>	Open wound of elbow, complicated
<b>S51.71</b>	Open wound of forearm, multiple, complicated
<b>S51.81</b>	Open wound of other parts of forearm, complicated
<b>S51.91</b>	Open wound of forearm, part unspecified, complicated
<b>S61.01</b>	Open wound of finger(s) without damage to nail, complicated
<b>S61.11</b>	Open wound of finger(s) with damage to nail, complicated
<b>S61.71</b>	Multiple open wounds of wrist and hand, complicated
<b>S61.81</b>	Open wound of other parts of wrist and hand, complicated
<b>S61.91</b>	Open wound of wrist and hand, part unspecified, complicated
<b>S71.01</b>	Open wound of hip, complicated
<b>S71.11</b>	Open wound of thigh, complicated
<b>S71.71</b>	Multiple open wounds of hip and thigh, complicated
<b>S71.81</b>	Open wound of other and unspecified parts of pelvic girdle, complicated
<b>S81.01</b>	Open wound of knee, complicated
<b>S81.71</b>	Multiple open wounds of lower leg, complicated
<b>S81.81</b>	Open wounds of other parts of lower leg, complicated
<b>S81.91</b>	Open wound of lower leg, part unspecified, complicated
<b>S91.01</b>	Open wound of ankle, complicated
<b>S91.11</b>	Open wound of toe(s) without damage to nail, complicated
<b>S91.21</b>	Open wound of toe(s) with damage to nail, complicated
<b>S91.31</b>	Open wound of other parts of foot, complicated
<b>S91.71</b>	Multiple open wounds of ankle and foot, complicated
<b>T01.01</b>	Open wound involving head with neck, complicated
<b>T01.11</b>	Open wounds involving thorax with abdomen, lower back and pelvis, complicated
<b>T01.21</b>	Open wounds involving multiple regions of upper limb(s), complicated
<b>T01.31</b>	Open wounds of multiple regions of lower limb(s), complicated

<b>Diagnosis codes</b>	<b>Descriptions</b>
<b>T01.61</b>	Open wounds involving multiple regions of upper limb(s) with lower limb(s), complicated
<b>T01.81</b>	Open wounds involving other combinations of body regions, complicated
<b>T01.91</b>	Multiple open wounds of unspecified site, complicated
<b>T79.3</b>	Post-traumatic wound infection, not elsewhere classified
<b>T80.2</b>	Infections following infusion, transfusion and therapeutic injection
<b>T81.4</b>	Infection following a procedure, not elsewhere classified
<b>T82.6</b>	Infection and inflammatory reaction due to cardiac valve prosthesis
<b>T82.7–</b>	Infection and inflammatory reaction due to other cardiac and vascular devices, implants and grafts
<b>T83.5</b>	Infection and inflammatory reaction due to prosthetic device, implant and graft in urinary system
<b>T83.6</b>	Infection and inflammatory reaction due to prosthetic device, implant and graft in genital tract
<b>T84.5–</b>	Infection and inflammatory reaction due to internal joint prosthesis
<b>T84.6–</b>	Infection and inflammatory reaction due to internal fixation device [any site]
<b>T84.7</b>	Infection and inflammatory reaction due to other internal orthopaedic prosthetic devices, implants and grafts
<b>T85.7</b>	Infection and inflammatory reaction due to other internal prosthetic devices, implants and grafts
<b>T87.001</b>	Complication of above elbow reattachment, infection
<b>T87.011</b>	Complication of below elbow reattachment, infection
<b>T87.021</b>	Complication of below wrist reattachment, infection
<b>T87.091</b>	Complication of upper extremity reattachment, level (of attachment) unspecified, infection
<b>T87.101</b>	Complications of above knee reattachment, infection
<b>T87.111</b>	Complication of below knee reattachment, infection
<b>T87.121</b>	Complication of below ankle reattachment, infection
<b>T87.191</b>	Complication of lower extremity reattachment, level (of attachment) unspecified, infection
<b>T87.201</b>	Infection of other reattached body part
<b>T87.4–</b>	Infection of amputation stump
<b>T88.0</b>	Infection following immunization

## Appendix C: Calculation of crude rates

To facilitate monitoring of changes over time, crude rates for the overall Hospital Harm indicator, as well as for each category of harm and clinical group, are provided in the Excel file [Hospital Harm Results](#), available on the [Hospital Harm Project](#) web page.

The overall denominator is used to calculate the overall crude rate and the crude rate for each category of harm. The denominator for each of the 31 clinical groups is based on numerator inclusion criteria and clinical considerations, as specified in the table below. For example, selection of harmful events for the Sepsis (B17) group is for patients age 1 year and older; thus the same age restriction is applied to the denominator cases. Another example is Delirium (A05); clinically, this does not apply to newborns, so newborns are removed from the denominator. While the crude rates are presented to show trends over time, the actual rates should be interpreted with caution due to the challenge of identifying relevant denominators for each of the clinical groups.

Clinical group	Denominator
<b>A06 Venous Thromboembolism</b>	All
<b>A08 Pressure Ulcer</b>	All
<b>A09 Electrolyte and Fluid Imbalance</b>	All
<b>A10 Medication Incidents</b>	All
<b>A11 Infusion, Transfusion and Injection Complications</b>	All
<b>A12 Aspiration Pneumonitis</b>	All
<b>B13 Urinary Tract Infections</b>	All
<b>B14 Post-Procedural Infections</b>	All
<b>B15 Viral Gastroenteritis</b>	All
<b>B16 Pneumonia</b>	All
<b>C19 Patient Trauma</b>	All
<b>D19 Patient Trauma</b>	All
<b>D20 Device Failure</b>	All
<b>D21 Laceration/Puncture</b>	All
<b>D22 Pneumothorax</b>	All
<b>D23 Wound Disruption</b>	All
<b>D24 Retained Foreign Body</b>	All
<b>D25 Procedure-Associated Shock</b>	All

Clinical group	Denominator
D26 Selected Serious Events	All
A05 Delirium	All except newborns*
A07 Hypoglycemia	All except newborns*
B17 Sepsis	All except younger than age 1
B18 Infections Due to <i>Clostridium difficile</i> , MRSA or VRE	All except younger than age 1
A01 Anemia — Hemorrhage	All except obstetric patients†
D01 Anemia — Hemorrhage	All except obstetric patients†
A04 Birth Trauma	Newborns* only
D04 Birth Trauma	Newborns* only
A02 Obstetric Hemorrhage	Obstetric patients† only
A03 Obstetric Trauma	Obstetric patients† only
D02 Obstetric Hemorrhage	Obstetric patients† only
D03 Obstetric Trauma	Obstetric patients† only

**Notes**

\* Newborns are defined by entry code (Entry\_code = N).

† Obstetric patients are defined as those with an inpatient record with major clinical category (MCC) of Pregnancy and Childbirth (MCC = 13).

## Appendix D: Text alternative for the Hospital Harm Framework

The Hospital Harm Framework includes 4 broad categories of harm, which are further broken down into 31 clinical groups.

The first category is Health Care–/Medication-Associated Conditions, which includes the following clinical groups: A01 Anemia — Hemorrhage; A02 Obstetric Hemorrhage; A03 Obstetric Trauma; A04 Birth Trauma; A05 Delirium; A06 Venous Thromboembolism; A07 Hypoglycemia; A08 Pressure Ulcer; A09 Electrolyte and Fluid Imbalance; A10 Medication Incidents; A11 Infusion, Transfusion and Injection Complications; and A12 Aspiration Pneumonitis.

The second category is Health Care–Associated Infections, which includes the following clinical groups: B13 Urinary Tract Infections; B14 Post-Procedural Infections; B15 Viral Gastroenteritis; B16 Pneumonia; B17 Sepsis; and B18 Infections Due to *Clostridium difficile*, MRSA or VRE.

The third category is Patient Accidents, which includes the C19 Patient Trauma clinical group.

The fourth category is Procedure-Associated Conditions, which includes the following clinical groups: D01 Anemia — Hemorrhage; D02 Obstetric Hemorrhage; D03 Obstetric Trauma; D04 Birth Trauma; D19 Patient Trauma; D20 Device Failure; D21 Laceration/Puncture; D22 Pneumothorax; D23 Wound Disruption; D24 Retained Foreign Body; D25 Procedure-Associated Shock; and D26 Selected Serious Events.

The framework has 3 levels:

1. Hospital Harm: The rate of hospitalizations where at least 1 harmful event occurred.
2. Category: The number of hospitalizations with at least 1 harmful event in that category.
3. Clinical group: The number of hospitalizations with at least 1 harmful event in that clinical group.
